

**Newcombe-Doty Private Telegraph Files Seized By Senate Lobby Group**

Committee's Reported 'Seizure of Telegrams Called "Infamous Abuse" of Power by Bainbridge Colby; Storm is Stirred.

**5 MILLION SEIZED**

Committee Sources Say 5 Million Private Messages Have Been Seized; Examined at Capital.

New York, March 5 (AP)—The Herald Tribune listed the following New York state individuals and organizations today as being among those whose telegraphic files have been subpoenaed by the United States Senate Lobby Investigating Committee.

White Plains—Lee Parsons Davis. Far Rockaway, L. I.—Queens Borough Gas and Electric Co., Edward L. Davies.

Kingston—A. R. Newcombe Oil Co., L. H. Doty.

Chatham—New York State Electric and Gas Corporation.

Bainbridge Colby, secretary of state in the Wilson cabinet, today called the Senate Lobby Committee's reported seizure of private telegrams an "infamous abuse" of power.

"My sympathy is entirely with any one, no matter in what field of activity, who is subject to this form of outrage," Colby statement said. "It is an infamous abuse of government power and is contrary to every theory of individual freedom and the citizen's immunity from governmental espionage and oppression."

"The record of the present administration so abounds in infamy that this is simply one more in a long series."

**Furious Struggle**

Washington, March 5 (AP)—New Dealers and their foes were locked in furious struggle today over the Senate Lobby Committee's scrutiny of private telegrams. Committee sources said 5,000,000 such telegrams had been subpoenaed and examined.

The quarrel, which produced repercussions on the floor of the House yesterday, is to be continued March 11 in District of Columbia Supreme Court.

On that day Silas Strawn, Chicago attorney who learned that the committee was about to subpoena his telegrams and quickly obtained a temporary injunction blocking the action, will ask that the injunction be made permanent.

The Senate Lobby Committee, headed by Chairman Black (D-Ala.) will oppose the demand. While getting ready for the court fight, the committee, which was named to inquire into lobbying for and against legislation, called representatives of Crew Levick Company of Philadelphia to testify today.

The wholesale examination of telegrams was attacked yesterday by Representative Wadsworth (R-N.Y.) and defended by Senator Black.

"It strikes me," Wadsworth said, "that we have reached a strange stage in the development of Democracy when private correspondence can be seized without court procedure or search warrant."

Black said: "Repeatedly it has been held that the Senate can call for what it pleases. There appears to have been concerted effort by those who seek to influence legislation behind the scenes, through subterranean channels, to prevent us from getting evidence."

Wadsworth complained that "tens of thousands of telegrams" had been seized by clerks of the communications commission and turned over to the Senate Committee.

**SAAC CAMPBELL ARRESTED; SLOT MACHINE SEIZED HERE**

Isaac Campbell, bartender at the Eagle Hotel, was arrested yesterday by the police and a slot machine in the hotel was seized. Campbell is charged with possession of the slot machine. This morning a hearing in the case was adjourned for one week.

**Fairbanks is Refused**

Paris, March 5 (AP)—Attaches of the United States consulate refused today to marry Douglas Fairbanks, movie actor, and Lady Ashley, former actress. The consulate officials told Fairbanks that they did not have the right to perform the ceremony. Previously, French authorities had refused to make an exception for Fairbanks and Lady Ashley to the French laws concerning marriages.

**Silence "Muzzling"**

Detroit, Mich., March 5 (AP)—Dr. J. Lanza, assistant medical director of the Metropolitan Life Insurance Company, told the American College of Physicians today that "silence" of the lungs caused by breathing hand or stone dust, was gradually disappearing in its severity.

**Veterans' Foreign Wars**

The regular meeting of the Veterans' Foreign Wars, V. F. W., is called for 8 o'clock tonight at the Duquesne. Important business is to be brought up and all members who can are asked to be present.

**Italy to Talk Peace on League Basis Under Certain Limits, Ethiopia Has No Reservations**

Attitude of Italians on Immediate Cessation of Hostilities Hinges on Two Points, but Territory in Africa Seized by Italy Must Not Be Considered Any Part of Peace Negotiations—Emperor Selassie Announces His Approval of League Appeal.

**READY TO RESIST**

Associated Press Photo  
Emperor Selassie

Tokyo, March 5 (AP)—The assertion by Joseph Stalin, leader of the Soviet Russia, that his nation would resist any Japanese aggression in outer Mongolia was answered today by a foreign office spokesman saying, "We are not able to take his statements seriously."

**Settlement Made in Metzger Suit Against Standard Oil Company**

A negligence action brought by Emanuel Metzger of Kingston against the Standard Oil Company of New York to recover for injuries which he alleged he suffered when he fell down a pit in the service station of the company at St. James street and Broadway in June, 1933, was settled during the overnight recess and at the opening of court this morning the jury which had heard a portion of the evidence was discharged from further consideration of the case.

Mr. Metzger, a local lawyer, sued for damages which he claimed were caused by the negligence of the company in failing to properly guard the pit in the service station. He had driven his car to the service station for service and when he alighted from the car which had been driven over a pit, he walked around to the rear of the car to enter the other portion of the service station which is used as an office. He fell into the pit. A. J. Cook appeared for Mr. Metzger and Harry H. Flemming appeared for the defendant company.

Two undefended actions were taken up before the court and a jury. Edward Bence of 22 Staples street brought an action against Allen Van Ordon Day to recover damages to his Ford sedan which was in collision with the Day car on the Hurley road about 1:30 o'clock on April 13, 1934. Bence testified his car had been damaged to the extent of about \$150 and instead of repairing it he traded it in on a new car. Miss Anna Lounsbury of Stone Ridge brought a second action for personal injuries. She with Bence were on their way to Stone Ridge from Huling's Barn when they allege the Day car ran head-on in the Bence car. Miss Lounsbury was thrown partially through the windshield and suffered a number of cuts about the face, loss of a tooth and injuries to her neck. She also sought to recover for loss of damaged clothing, a lost bracelet and for loss of four weeks' time at her job at \$15 per week.

In addition she sought to recover \$20 for doctors' bills and \$4.85 for hospital fees. She sued for \$2,500. Elmore N. Nathan appeared for Judge B. A. Culliton for plaintiff and there was no defense. The matter was submitted to the jury shortly before noon and the court reserved pending the decision of the jury.

Juries were excused until Monday morning at 10 o'clock. There will be no court Friday due to the holding of a special term here by Justice Schirck.

In a negligence action tried Wednesday Joseph Penzato was awarded a verdict of \$200 in his action against Gordon H. Peck. This action was one arising out of a collision near Jenkintown. Peter H. Harty attorney for plaintiff.

The questions submitted to the

Rome, March 5 (AP)—Italy will accept the League of Nations appeal for peace with Ethiopia, an excellent source said today, as a basis for discussion under certain conditions.

What the conditions would be was not disclosed exactly, but the principal one was declared to be that territory already occupied by Italy in East Africa must be considered hers, and must not form any part of the peace negotiations.

(The Ethiopian government announced its acceptance without reservation.)

Another Italian condition to final acceptance of the peace appeal was understood to be with reference to the League suggestion for an immediate cessation of hostilities.

Italy's attitude toward this subject was described in two points:

It would not be possible to halt hostilities from one day to another, as though the war were a stage drama. Thus, a decision on this point probably would be left to Marshal Pietro Badoglio, commander-in-chief of the Fascist forces in East Africa.

A cessation of hostilities would permit Ethiopia to carry out what Italy contends is its usual policy of procrastination and deviation during negotiations, thus destroying the effect of Italy's recent heavy blows on the northern and southern fronts.

Studies Peace Appeal.

The authority who outlined these views pointed out, however, that Italy was still studying the peace appeal, pending its final answer.

Marshal Badoglio reported today: "The troops of the Second Army Corps reached the Takaze river this morning and are pursuing the fleeing enemy."

While Premier Mussolini's government still studied its formal reply to the proposal, dispatched last Tuesday, Undersecretary for Foreign Affairs Fulvio Suvich and the Austrian Prince Ernst Von Starhemberg surveyed the relations of their two nations, and the European situation as it affected them, in a one-hour conference.

These conversations formed a prelude to a conference this afternoon between the Austrian Vice Chancellor and H. Duce.

Every effort was being made by Austrians and Italians alike to lend to Von Starhemberg's visit the simple aspect of an inspection of Italy's Fascist Blackshirt militia.

Von Starhemberg Congratulated Before arriving in Rome, Von Starhemberg had telegraphed to Mussolini congratulations for the victories of the Blackshirts in East Africa.

"Best wishes for the future of the Fascist symbol," Austria's Vice Chancellor messaged.

He gave a luncheon today for Fascist officials, and will preside tomorrow over a Fascist review.

Diplomatic sources said, however, that many other subjects formed the program of his discussions, among them an extension of the Italo-Austro-Hungarian accord to other states willing to join, preparation for the Italo-Austro-Hungarian conference here March 18, a possible Italo-German rapprochement and relations between Italy and Austria under sanctions.

An eventual Italo-Austro-German agreement was foreseen by some Italians as a result of the negotiations, with Austria and Germany lowering their mutual tariffs, Germany guaranteeing Austria's independence and Italy countervailing development of Pan-Germanism in Austria.

Thus, some Italian sources said, Germany might be brought closer to Italy in the place of the old allies, Britain and France.

**No Reservations**

Addis Ababa, March 5 (AP)—Emperor Haile Selassie announced today his approval of the League of Nations appeal for a cessation of hostilities with Italy, with a view to opening definite peace negotiations within the framework of the League. The King of Kings granted his approval of the appeal, issued Tuesday by the League council's conciliation committee of 12, without reservation.

A government communiqué said today an Italian plane bombarded a British ambulance camp near Gondar, on the northern front, yesterday, killing seven patients but injuring none of the personnel.

Jury in the application for a commission in the estate of Miss Mary H. Van Gasebeck, an alleged incompetent, were answered in the affirmative and a commission will be appointed by the court to manage her property.

No. 102, Kaplan Furniture Co. Inc., against Mike Nabella and another, an action on contract, was dismissed on application of plaintiff's attorneys, Arthur B. Ewle, and an order will be entered directing the return of the complaint.

**Bambrick Says Strike Goes to 'Fight to Finish' After La Guardia Talk**

Building Service Employees' Leader Will Send Call to Areas Not Yet Affected; Sharp Fight With Mayor.

**NEW TROUBLES**

New Labor Difficulties Crop Out in Other Sections Where Strikes are Progressing.

New York, March 5 (AP)—Shortly after Mayor LaGuardia appealed anew today to really interests to arbitrate the building service employees strike, James J. Bambrick, strike leader declared that he would "carry the fight to a finish."

Bambrick said he was prepared to issue strike calls for sections of the city as yet unaffected by the walkout which began last Sunday.

The statement of the strike leader, who is president of the local unit of the Building Service Employees Union, came after peace negotiations at city hall ended in sharp disagreement.

Real estate owners, through representatives, declined to arbitrate on the closed shop issue, one of three demands the union is making.

Mayor LaGuardia, who has strenuously sought a settlement of the strike, said:

"I want to appeal to the real estate interests to consider this offer XXX."

"The minute the arbitration offer is accepted the union will call off the strike and go back to work. I can not see how any reasonable persons can reject any such offer."

New Trouble Looms

New Labor difficulties cropped out today after peace efforts in most of the strike centers met with failure.

Developments included: Harrisburg, Ill.—A general labor holiday was called by the Progressive Miners of America as a demonstration against the reopening of a closed mine with employees they termed, "imported" members of a rival union, the United Mine Workers.

Leaders sought a shutdown of all business activity here and a county-wide walkout. State highway patrolmen were concentrated in the troubled region.

Philadelphia—A strike of meat truck drivers called at midnight by the Brotherhood of Transportation Workers threatened to tie up all meat deliveries in Philadelphia. The union demanded a weekly salary of \$31.50, a 48-hour week, and union recognition.

Jennette, Pa.—Pennsylvania Rubber officials established a temporary office in nearby Greensburg. The plant here was picketed while 800 employees seeking union recognition and higher wages remained on a "holiday."

Boston—The strike of 4,000 ladies garment workers entered its second week with no settlement sighted.

El Paso, Tex.—The Central Labor Union voted a general boycott against the El Paso Electric Light Co. To aid striking electrical workers.

Akron, O.—Charging a "lockout" had been effected, the Union Match Workers Federal Labor Union stationed pickets at the Palmer Match Co., employing more than 450. More than 14,000 remained idle in the Goodyear Tire & Rubber Co. strike.

San Pedro, Calif.—The Limer California prepared to sail after the 374 crew members agreed to abandon their three-day strike.

Newburgh, N. Y.—Striking teamsters halted trucks at entrances to the city to support their efforts to gain wage increases. The dispute is in its fifth day.

Cedar Rapids, Ia.—A seniority disagreement caused the walkout of employees of two departments of the Wilson & Co. Packing plant.

**More Sabotage Suspected**

London, March 5 (AP)—The British Admiralty investigated today two new cases of suspected sabotage aboard warships of the royal navy, making a total of six such incidents reported within the last three months.

Apparent attempts at sabotage, the Admiralty announced, were made on the 32,000-ton battle cruiser Repulse and the submarine H-25. The nature and extent of the damage was not disclosed.

**Just A Year Ago Today...**

(Taken from the file of The Freeman)

Radio waves carry some comforting words as Father Churchin the radio priest, Holy Louis, very Louisiana senator, and Hugh Johnson, erstwhile blue eagle head, wrangle and call each other choice names in a series of heated radio tirades.

Burglars enter the West Shore Hotel on Railroad avenue and make away with large quantity of liquor refreshments.

Temperature Lowest 22, high 49.

**Experts Submit Ways To Raise 667 Millions As Additional Revenue**

Methods Said to be Merely Suggestions Would Raise 446 Millions Extra From Income Levies, Remainder in Processing.

**EXEMPTIONS SAME**

Neither Tobacco, Liquor, Medicine Nor Clothing Would Be Touched.

Washington, March 5 (AP)—Administration experts submitted to a House ways and means subcommittee today suggestion for raising up to \$446,000,000 additional revenue from income taxes and \$221,000,000 annually from farm processing taxes.

Chairman Samuel D. Hill (D-Wash.) emphasized to reporters that the figures and schedules were mere suggestions for possible sources of revenue submitted to the subcommittee because it wants complete information on all methods of obtaining money to meet President Roosevelt's tax proposals.

The income tax material came from Treasury experts, while agriculture department officials supplied the processing tax estimates.

The Treasury experts, Hill said, also turned in figures to show how a 1 per cent general manufacturer's excise tax would bring in around \$180,000,000 a year, while a 5 per cent tax would yield about \$910,000,000.

Hill said the proposed excise levies would not apply to liquor and tobacco, already taxed, nor to food, clothing and medicine. The present yield from excise taxes, he said, is about \$380,000,000.

In the income tax field, he said it was estimated \$45,000,000 would come in should the exemption of a single man be lowered from \$1,000 to \$800 and that of a married person from \$2,500 to \$2,000.

Leaving exemptions as they are now, he said, and at the same time boosting the normal tax from 4 to 6 per cent, would add an estimated \$121,000,000 to the government's annual receipts.

By lowering exemptions on surtaxes from \$4,000 to \$3,000, Hill asserted, and sharply increasing the rates in income brackets up to \$109,000, the treasury would get an extra \$228,000,000 annually.

"A combination of all these possibilities of all income taxes would raise \$446,000,000 additional," he said.

Earlier, Chairman Doughton of the House Ways and Means Committee said today "it would suit me" if Congress could get enough revenue from corporation and "windfall" taxes to meet President Roosevelt's revenue suggestions without resorting to processing levies on farm products.

He told reporters, too, "there might be some reduction" in a proposed average tax of 33 1/3 per cent on undivided corporation profits for those corporations which have not built up reserves. Doughton said he saw some merit in giving such corporations a "cushion" to fall back on in times of depression.

As the chairman of the powerful committee outlined his views, a subcommittee met again with treasury experts behind closed doors to continue its explorations of methods of meeting the Roosevelt tax proposals.

**VACUUM GLASS SCHOOL READY FOR 120 STUDENTS**

Hibbing, Minn., March 5 (AP)—Ready for 120 students Monday is a new school building with walls of structural vacuum glass designed to allow penetration of health-giving sunlight and equipped with huge playgrounds and modernistic furniture.

Other gadgets the Little Red Schoolhouse never had included an electric eye control to turn lights on or off as daylight waned or brightened, regulators for temperature and humidity and scientifically correct acoustics.

**Arresting Pro-Japanese**

Canton, China, March 5 (AP)—Chinese government secret agents were reported by Chinese sources today to be arresting and executing pro-Japanese sympathizers in Southern Fukien Province. Government officials in that area had reported a Japanese infiltration from Formosa into South China and had stated they believed this infiltration preceded action for autonomy along the lines of the movement recently carried in North China.

At the same time, government troops are fighting irregulars in Southern Fukien. The troops were reported to have won a victory at Yungking, where many surrounding villages were pillaged. Military authorities said they believed the irregulars were surrounded.

**Treasury Receipts**

Washington, March 5 (AP)—The position of the Treasury March 5. Receipts, \$11,570,195.90; expenditures, \$11,125,212.44; net balance, \$1,444,983.46. Customs receipts for the month, \$2,222,288.24. Receipts for the fiscal year (since July 1), \$2,272,122,223.74; expenditures, \$4,002,224,151.10, including \$2,222,288.24 of "emergency" expenditures. Excess of expenditures, \$2,425,441,927.26. Gross debt, \$20,514,004,922.48, a decrease of \$354,528.25 under the previous day's. Gold month, \$19,165,722,955.21.

**Supervisors Also Oppose Crossing Elimination Plan Proposed by West Shore****Hoffman Denies Plan To Repeal Hauptmann**

New York, March 5 (AP)—Governor Harold Hoffman of New Jersey today denied that there would be another reprieve for Bruno Richard Hauptmann, convicted slayer of the Lindbergh baby.

"As matters now stand," Governor Hoffman said just before addressing the Broadway Cheese Club luncheon at the Hotel Astor, "there will be no further reprieve for Bruno Richard Hauptmann."

"My attitude of January 17 is unchanged. Unless something arises that will bring Mr. Wilentz (attorney general) and myself into agreement to go before Justice Trenchard based on new evidence, there will not be a reprieve."

"To say that I have changed my mind, as has been reported frequently of late, is entirely incorrect."

**Local Men Discuss Crossing Elimination With Public Service**

Albany, March 5.—(Special)—Headed by Mayor C. J. Heiseleman, indignant Kingstonians came here yesterday to protest verbally and in writing an order of the Public Service Commission for eliminating the New York Central grade crossing at Broadway in Kingston.

At an informal conference behind closed doors the delegation conferred with the state engineer and officials of the Public Service Commission for nearly two hours and registered their disapproval of the order that has been standing for several months.

Their chief argument against the grade crossing elimination was that such a work would completely unbalance real estate properties of the city and harm certain business establishments now located near the tracks, that would become virtually worthless should either the railroad or that section of Broadway be depressed.

Mayor Heiseleman personally presented a petition adopted unanimously by the common council of Kingston requesting that this order be rescinded. It was understood that several alternative possibilities were discussed during the afternoon conference lasting until 4 o'clock for changing the present railroad tracks, and one possibility advanced was to construct a by-pass around the city of the West Shore branch of the New York Central.

In a brief statement to a representative of The Freeman, Mayor Heiseleman asserted:

"We presented the petition of the common council and added vocal objections. We told them in no uncertain terms we would resist this order to the utmost and we understand that the power is in the hands of the Public Service Commission to order this plan to be executed."

The mayor added his request to the commission to reopen this entire case, have it quashed and taken off the books.

Those who accompanied Mayor Heiseleman were David Conway, Edward T. McGill, Cornelius S. Treadwell, William O'Reilly, George Dittmar, John Van Benschoten and Louis Dutto.

Immediately after leaving the Public Service office they went to the highway department to register their objection with this agency, which has power in such cases but nevertheless serves at times in an advisory capacity.

While details from the first meeting were not disclosed it was evident that there had been some spirited argument over the proposed plan to emphasize their disapproval on behalf of the citizens.

Should the order be executed the railroad would have to bear 50 per cent of the expense to state 49 per cent and the county one per cent. However, it is not the expense that is being complained of, but the harm that would come to owners of property near the crossing.

This has developed into a bone of contention between the Kingston city administration and the Public Service Commission for approximately a year, with discussion on eliminating the crossing dating back to nearly the time when the railroad was first introduced along the Hudson river west bank.

Proponents of the order, now believed to be in the minority hold that for safety's sake the grade crossing should be eliminated and further argue that because both hospitals in Kingston are on one side of the track possible delays of doctors and ambulances will impair life at times of emergency when a train may be blocking traffic on the Broadway thoroughfare.

**3 Years in Prison**

Vienna, March 5 (AP)—Viktor Kilm, a Nazi engineer, was sentenced today to five years in prison for attempting to blow up a long-distance telephone exchange and gas mains in a terroristic plot.

**Board Adopts Resolution Opposing Elimination of Broadway Crossing by the Proposed Plan of Depressing the Roadway.****OTHER MATTERS****Transfer \$20,000 From Road to Maintenance Fund and \$12,000 From General for Snow.**

The Ulster County Board of Supervisors Wednesday evening at an adjourned meeting voted to oppose the plans now being proposed for the elimination of the Broadway grade crossing and adopted a resolution to that effect. This action followed the receipt of a resolution adopted by the Common Council, following a public hearing at which some 300 people were present and expressed a unanimous opinion that the present plans are not the best possible plans. The Common Council has already gone on record as being opposed to the plans on the grounds that the plans call for a narrow depressed roadway under the West Shore tracks and if the present plans are followed out, a serious and dangerous condition would exist there in addition to doing vast property damage.

The board also voted to transfer \$20,000 from the county road fund to the maintenance fund and also to transfer from the general fund the sum of \$12,000 for snow removal. Other routine matters were transacted.

Thirty-two supervisors were present when Clerk Fred Stang called the roll. Supervisor Ashby was excused.

Communications were received from Senator Arthur Weeks and from Assemblyman J. Edward Conway acknowledging receipt of a copy of a resolution which was adopted by the board at its last meeting creating a legislative committee, composed of members of the board, who will watch pending legislation and make recommendations.

A copy of the resolution adopted by the Common Council opposing the elimination of the Broadway crossing by depressing the street was received from City Clerk Dempsey and later in the meeting Supervisor Wadlin of Lloyd offered a resolution that the board also oppose the elimination by the present plan. Unanimously adopted.

A communication was received from the Department of Water, Gas and Electricity of the City of New York offering to renew for another year an agreement between the county and the city for use of a small parcel of land on the Shandaken highway road in the town of Olive which is used to straighten out and eliminate a bad curve on the highway. The agreement is made from year to year for the sum of \$1. On motion of Supervisor DuBois the agreement was accepted and the county authorized to enter into the agreement.

A communication was received from Mary C. Doremus, County Agent, calling attention to the fact that there was a case growing out of children's court which the county might assist in. It is a case where a young girl was injured in a coast-line accident and received severe facial injuries. The family cannot pay the cost of medical treatment required and she suggested that since Judge Traver of the Children's Court would sign an order permitting medical treatment by a specialist, that the board of supervisors appropriate funds for transportation of the child and her mother once a month for 13 months to New York. Half of this cost will be refunded the county. On motion of Supervisor Lerry the board appropriated the sum of \$24.70 for railroad fare to and from the point of treatment. The case is serious and comes under the crippled and ruptured care provision of the law.

County Superintendent of Highways James H. Longman made a request for additional money for snow removal as the appropriation already made is about exhausted. Supervisor Stanbrough moved that \$12,000 be transferred from the general fund to the credit of a snow removal fund. Unanimously adopted.

**Communications Received**

A letter was also received from Mr. Bluff of the Post-Keefe office of the State Highway Department calling attention to the fact that certain changes were desirable in the plans for the new express over the West Shore tracks at West Park. He requested that Mr. Loucheur take up with the board the matter of the county paying for certain changes in rights of way. The request is made in order to provide for drainage of the Lloyd Plaza pond near the viaduct and for the placing of a cast iron curb under the roadway to take care of certain water pipes of Lloyd Water in the same locality. On motion of Supervisor Cashdollar an appropriation of \$2,000 was made as the county's share of this work was done by the contractor on the project and would be for the benefit of the county.

## \$44,725 for Projects In Town of New Paltz

Among WPA projects which have been approved for allocation are two road projects in Ulster county, both in the town of New Paltz, the total amount allowed being \$44,725.50 They are:

New Paltz—Improve 1.6 miles of the Jansen Cross road, including widening, etc., \$15,070.10; improve 3.6 miles of the Mt. Root road from New Paltz-Tillon county highway to Marbetown town line, \$29,655.40.

### CHICHESTER

Chichester, March 4.—Miss Verna Law has returned to her work in the Kingston Hospital after spending a few days at her home in this place.

The Baptist Ladies' Aid held an all day quilting bee on Tuesday.

Miss Belle Batterlee has returned to her home at Mt. Tremper after spending the winter with Mrs. A. DuBois.

Miss Ruth Morris, who is in training in Bellevue Hospital, has been spending a few days with her parents.

Mr. and Mrs. L. Keator and daughter visited Corporal Vincent Keator at West Point, Saturday evening.

Mr. and Mrs. V. Eokert entertained out-of-town guests on Sunday.

A daughter was born to Mr. and Mrs. John Stalger Tuesday morning, March 3.

### 100 Per Cent Democratic

Green Island, N. Y., March 5 (AP)—The Democrats polled 100 per cent of the 123 votes cast in the village election, the unofficial tabulation indicated today. Their ticket was the only one in the field, none being nominated by the Republicans and no names being written in. Village President James J. Carr and his staff were all re-elected.

## ARMY STRIVING TO CUT FLYING PERILS

Research Laboratory Will Be Ready Soon.

Piston, Ohio.—Construction will start soon on the Army physiological research laboratory in the United States, which will be an altitude work center for army officials at Wright field.

An appropriation of \$100,000 has been made for the laboratory on the roof of the new administration building. It is to be erected above a pressure room which will form a part of it. The pressure room duplicates conditions found at high altitudes.

The proposed unit will consist of two sub-laboratories, one biochemical and the other for physiological research proper. It will include also a room to house the small animals which will be used in experiments.

Capt. Harry G. Armstrong, who attained national prominence recently as a result of a transpire on the physical reactions to a parachute jump, will be in charge of the laboratory.

### Health to Be Studied.

Armstrong said the laboratory will attempt to solve problems of safety, comfort, health and accidents of altitude flying.

"An officer who is flying at a high altitude may be cold," Captain Armstrong stated in explaining the work "but not necessarily ill because of this. But we wish to find out definitely whether this condition reduces his efficiency. If he would rather be on the ground in a warm room because his flying suit does not shield him from the bitter cold at high altitudes, then he cannot be at top efficiency. Problems like that are what we will try to solve."

Armstrong has made plans to obtain a number of rare instruments for the laboratory. The laboratories at Harvard university have agreed to supply two of these—a spirometer and a kymograph.

### Gases in Lungs Measured.

A spirometer is a small instrument which when breathed into collects gases from the lungs. It is delicately balanced so as not to alter the analysis of the breath and affect its composition by pressure. The instrument will be used to determine the exact

composition of lung gases at high altitudes, since they change after inhalation.

The kymograph is a recording device used in the pressure chamber to determine breathing rate and depth at high altitudes, blood pressure and other physical reactions.

Armstrong has developed a "re-breather" which will purify the waste air thrown off by the lungs so that it may be used again. The officer said only one twentieth of the air inhaled is absorbed and used and the remainder is wasted. The "re-breather" will purify this for use.

## Lake "Shanty Town" Has Hundreds of Residents

Mt. Clemens—"Shanty Town," the mushroom city on the ice of Lake St. Clair is growing in population by leaps and bounds.

This city of ice fishermen located principally just south of the Clinton river mouth back in the small bay is probably the most popular of fishing shanty colonies on Lake St. Clair.

"Shanty Town" not only has hundreds of residents but a restaurant operated by an enterprising boat livery proprietor.

The colony is also interspersed with hundreds of "transients"—fishermen who have no shanties but who crack holes in the ice and depend on their tip-ups.

To the casual observer who has never tried it, ice fishing doesn't appear at all enticing. But converts to the sport prefer it to ordinary fishing in warm weather. To the casual observer, the men with the tip-ups are miserable when the wind blows an icy blast. But the man with the tip-ups is having the time of his life. He heeds not the cold wind his cold and wet feet, nor the fact that fishing isn't an indoor sport.

The man in the shanty is a little better off. With some sort of a heater, kerosene coal or wood stove, he sits in the dark in comfort watching for hours and hours through the hole in the ice his spear in readiness.

### Temple Minstrel Rehearsal

The second rehearsal this week for the Temple Emanuel minstrel show will be held tonight at the social hall of the temple, Abeel street, starting at 7:30. All members of the cast are requested to be present. The date of the minstrel is March 26.

## Events Around The Empire State

Niagara Falls, N. Y., March 5 (AP)—Ezra Lambert, whose friends believe he is the oldest man in New York state, began his 101st year of life today. Lambert, who lives at the Niagara County Infirmary, says he was born in 1830.

Utica, N. Y., March 5 (AP)—Harry W. Berry, former mayor of Port Jervis, was free under \$3,000 bond today, pending his appearance in federal court at Syracuse next month on a charge of using the mails to defraud. Berry pleaded innocent before United States Commissioner Gordon Samuels here yesterday. He was indicted on charges involving an estate of which he was administrator.

Albany, N. Y., March 5 (AP)—Instruction in highway safety as part of the curricula of public schools is favored by the safety committee of the New York council on economics. Resolutions asking school boards of New York state to effect the proposals were adopted by the group yesterday.

Poughkeepsie, N. Y., March 5 (AP)—Representatives of 31 colleges prepared today to conduct themselves as imaginary envoys of as many nations at the 10th annual meeting of the Model League of Nations at Vassar College. The only professional instructors are Dr. Charles Fenwick of Bryn Mawr, Prof. Howard Calderwood of the University of Michigan and Dr. Walter Kotschnig, a member of the league commission for German refugees. Among colleges and universities participating are Elmira, Syracuse, Rochester, Barnard, Cornell, Skidmore, Union, Sarah Lawrence, Wells, Vassar and St. Lawrence.

Albany, N. Y., March 5 (AP)—And now the housewife may learn, in her own home how to budget, plan diets, cook and market—under a plan announced by Mrs. Ellen Button, state supervisor of adult education under the Works Progress Administration. The classes for teachers who will teach the housewives, she said, will be sponsored by the homemaking division of the upstate emergency adult education unit in co-operation with the state education department and financed by the WPA.

## Straw Stack Imprisons Lost Calf for 55 Days

Sanger, Texas (AP)—The proverbial needle had nothing on Farmer J. C. Wagoner's lost calf.

Wagoner advertised he had lost a valuable calf. He thought it strayed or stolen. No trace of it was found for 55 days.

Then his son, Rex, passing a large straw stack in a pasture, noticed a slight movement in the straw. He investigated and found the missing calf. It had gotten inside the stack in some manner and apparently could not get out. It had become blind in one eye.

## What's Doing in the N.Y. Legislature Today

Albany, March 5 (AP)—Today in the New York Legislature.

Both houses meet at 11 a. m. for perfunctory sessions, mainly for introduction and advancement of bills.

Here is a fact worth remembering when you get ready to make up your political predictions for 1936. There are a lot of folks on relief, but there are many others who expect to be called on to pay the bill.

# "SALADA"

**--The finer TEA**

*Each puff less acid*

# A LIGHT SMOKE

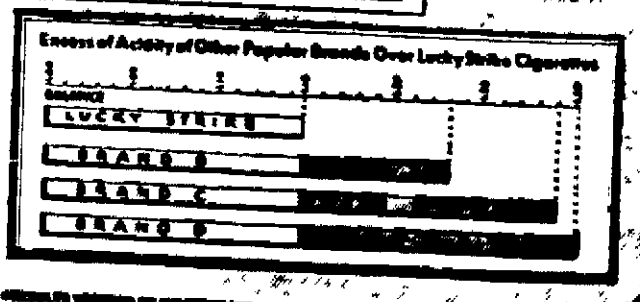

OF RICH, RIPE-BODIED TOBACCO

All kinds of people choose Luckies, each for reasons of his own. But everyone agrees that Luckies are A Light Smoke of rich, ripe-bodied tobacco. It is a rather surprising fact that the leaves of the same tobacco plant may vary far more than the leaves from plants of quite different types. Chemical

analysis shows that the top leaves contain excess alkalies which tend to give a harsh, alkaline taste. The bottom leaves tend to acidity in the smoke. It is only the center leaves which approach in nature the most palatable, acid-alkaline balance. In Lucky Strike Cigarettes, the center leaves are used.

## Luckies are less acid

Recent chemical tests show that other popular brands have an excess of acidity over Lucky Strike of from 55% to 100%.

*Luckies—"IT'S TOASTED"*

Your throat protection—against irritation—against cough

One Cent-A-Word Advs. Bring Results

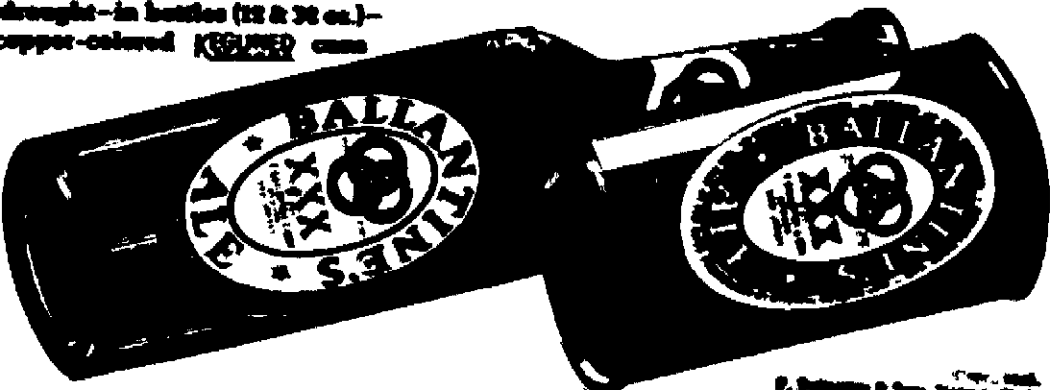

# BALLANTINE'S ALE

*America's finest since 1840*

A CONTENTED man blows smoke rings. But there are other rings that lead to contentment, too—the 3 rings of Ballantine's Ale. They stand for America's finest ale. It was in 1840 that Peter Ballantine originated his 3-fold test of ale—one drink

to judge the PURITY—a second for BODY—a third for FLAVOR. The 3 smoke rings left by his glass on the table, as he made the test, became famous as the mark of a good ale. Look for the 3 rings of quality—THEN ASK FOR "BALLANTINE'S!"

On draught—in bottles (12 & 36 oz.)—in copper-colored KEGER cans

## PUBLIC MERIT SYSTEM

What could be more useless than a sixteenth century Chinese encyclopedia? The answer is, plenty of things. For years the Bureau of Plant Industry at Washington has had an expert translating the encyclopedia, for the sake of its information about the habits of plants which it was hoped to domesticate in this country. Many practical hints were thus obtained, as well as many futile attempts avoided, and thousands of dollars saved. This expert service is only one of the many kinds regularly offered at Washington. For a long time past, while political cabinet officers came and went, the permanent civil service has carried on the real work of the government. It is not too much to say that, without these officials, protected by the merit system, the government would have been, under the strains of the war and of the depression, in serious danger of breaking down.

Our local governments are slow to learn the lesson. Less than a third of the states have adopted the merit system of appointing officials, nor have the cities and counties done even as well. No wonder state and local governments all over the country are pleading poverty, and even bankruptcy. If they filled their offices from merit lists instead of politicians' recommendations, they would save enough money at least to ease the worst of their plight, and might even get out of the red altogether.

## ABSURD BABY RACE

It is hard to get up much enthusiasm for that "stork derby" in Canada. It looks like a pretty good demonstration of the folly of reckoning national greatness by population, and subsidizing production of children as if they were so many hogs or cattle. If mere counting of heads determined national value and importance, China and India would be "tops." The competition set up by the \$500,000 bequest of the Toronto lawyer, as the thing works out, isn't even fair sport. In the race to see what prolific mother can produce the most babies in ten years, there is no requirement that the babies shall even be alive. Mere registration of birth is enough. In the case of the woman who is now in the lead, with 12 babies to her credit, only seven of them are living.

More important yet is the fact that in this competition there are no standards set for quality, either in parentage or in offspring. The winning family might be, and from general observation of the leading contestants probably will be, a mediocre family, or even a family of morons. Unless they are superior to the average, rather than commonplace or inferior, what good does their production do Canada? Nobody would think of offering such a silly reward for mere quantitative production of livestock or fruits or vegetables. In those fields there is intelligent application of eugenics.

## STOP AND LOOK

A railroad man who has seen far too many accidents at railroad crossings writes this interesting comment from the railroad viewpoint.

Railroad men are in a class by themselves when it comes to realization of the importance of the application of safety first, whether it be in the operation of a train or an automobile. Many are the railroad men today who are confined to insane asylums, hospitals and jails, in their careers, as a result of shock in accidents or near-accidents at railroad crossings.

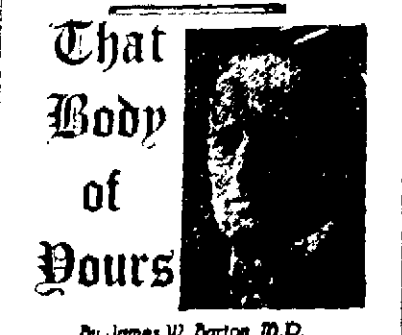

We are constantly being reminded of the vital importance of the application of the slogan "Stop-Look-and-Listen." If the external parties were to apply this advice in the driving of their automobiles, no doubt it would play a large part in the elimination of railroad crossing accidents. Doubtless it would. And at other crossings as well. The "listen" part of it doesn't seem to apply so well to

street crossings as railroad crossings, because the automobiles, unlike trains, often sneak up quietly on the unwary driver. But how about a "Stop-and-Look" sign instead of a mere "Stop" at corners where there are no stop-and-go lights?

## TELEPHONE ETIQUETTE

The latest telephone wrinkle is not, as might be supposed, American but Japanese. Calling long-distance in Japan, you give the operator your name and the statement "private call" or "business call," as the case may be. This gives the person called a chance to prepare himself, and saves an instant's valuable time—for which you are paying.

Though this is efficiency, the friendly Ethiopic style of telephoning has its points, too. There one calls the operator by turning a crank, as in our older styles. By no means must you start by abruptly asking for your number. Never. Begin thus: "Good morning, operator; how are you?" After a few minutes' chat, you may inquire for your party. It is true that, even after this friendly introduction, you get the wrong number. Still, that is not unknown even in the efficient U. S. A.

## COMMON COLD AND SINUSITIS

Instead of having a "common cold" many individuals now tell their friends that they have "sinus" trouble or sinusitis as it is properly called.

Now man has always had sinuses, because these cavities or holes in the face or skull serve as a sounding box for the voice. If these sinuses get filled with mucus or pus, you know how flat the voice becomes, having lost the resonance which these hollow cavities are meant to give it.

Most of us think of the sinuses as just the two big hollows in the upper jaw under our cheeks, but there are really five sets of cavities on either side of the face known as the paranasal cavities or sinuses. As mentioned before the lining surface or membrane of these sinuses is the same as that of the nose, and as these sinuses all adjoin or are connected directly with the nose, the lining of the nose simply extends into the sinuses. You can thus see that an inflammation of the lining of the nose can extend up into the sinuses and cause the same or a similar inflammation which is called sinusitis.

Now if the mucus or pus that accumulates in these sinuses could simply run downwards and out of the nose through a good sized opening, sinusitis would not be a serious matter. However the holes opening into the sinuses from the nose are sometimes very small, and also the openings are at the top of the cavity and if the mucus or pus is thick you can see the difficulty it would have in flowing "upward" to get into the nose and then out of the body.

Thus in severe cases of "chronic" colds or sinusitis it is sometimes necessary to make the opening larger or drill a hole at the bottom of the cavity to let the mucus or pus flow downward into the nose and out of the body.

Our nose specialists tell us that organisms that cause colds or make the organisms that cause colds more active, are lying in these sinuses of these old or chronic cases of sinusitis and with bad weather, poor health, wrong eating, they cause what is generally known as the common cold.

Eating the alkaline diet—fruits, vegetables, milk—and cutting down on salt and liquids seems to benefit patients with sinusitis and colds.

## TILLSON

Tillson, March 5.—Reformed Church, the Rev. I. P. Emerick, pastor.—Sunday School at 10 a. m. Worship service at 11 a. m. The Ladies' Aid Society will meet next week Thursday, March 12, at the home of Mrs. Willis Keator. A full attendance is desired since arrangements will be made for the annual dinner in April.

Friends Church—Sunday School at 10 a. m. Church service at 11 a. m. Prayer meetings have been discontinued until May 1 on account of bad roads.

Ralph Dewar and family went to Canaan, Conn., Sunday and visited relatives there.

Mr. and Mrs. Willis Keator called on Mrs. Keator's mother at Fort Plain Sunday afternoon.

Mr. and Mrs. Martin DeWitt of Wallkill called on Mr. and Mrs. William DeWitt Sunday afternoon.

Mr. and Mrs. Anderson and son and Mrs. Anderson's sister of New York called on Mr. and Mrs. Richard Demarest Sunday afternoon.

The Andersons are the owners of the Cedar Park House and expect to occupy it themselves this summer.

A number from here attended the clam-brooder supper last Friday night at the Parish House, Riverdale.

Mrs. Phoebe Brown is keeping house for Mrs. Judson Avery since her return home.

## THE BOOMERANG CLUB

Chapter 43  
 "MURDER! POLICE!"

HOW Bobby and Frankie got out of the post office without disgracing themselves neither of them ever knew.

Outside, with one accord, they looked at each other and shook with laughter.

"At the vicarage—all the time!" gasped Bobby.

"And I looked through four hundred and eighty Evances!" lamented Frankie.

"Now I see why Bassington-French was so amused when he realized we didn't know in the least who Evans was!"

"And of course it was dangerous from their point of view. You and Evans were actually under the same roof."

"Come on," said Bobby. "March! Let's see the next place!"

"Like where the rainbow ends," said Frankie. "Back to the dear old home."

"Dash it all," said Bobby. "We must do something about Badger. Have you any money, Frankie?"

Frankie opened her bag and took out a handful of notes.

"Give these to him and tell him to make some arrangement with his creditors, and say that Father will buy the garage and put him in as manager."

"All right," said Bobby. "The great thing is to get off quickly."

"Why this frightful haste?"

"I don't know—but I've a feeling something might happen."

"How awful! Let's go over so quickly."

"I'll settle Badger. You go and start the car."

"I shall never buy that toothbrush," said Frankie.

Five minutes saw them speeding out of Chipping Somerton. Bobby had no occasion to complain of lack of speed.

Nevertheless, Frankie suddenly said, "Look here, Bobby, this isn't quick enough."

Bobby glanced at the speedometer needle, which was, at the moment, registering eighty, and remarked dryly, "I don't see what more we can do."

"We can take an air taxi," said Frankie. "We're only about seven miles from Medeshot airport."

"My dear girl!" said Bobby. "If we do that we'll be home in a couple of hours."

"Good," said Bobby. "Let's take an air taxi."

The whole proceeding was beginning to take on the fantastic character of a dream. Why this wild hurry to get to Marchbott? Bobby didn't know. He suspected that Frankie didn't know either. It was just a feeling.

At Medeshot Frankie asked for Mr. Donald King, and an untidy-looking young man was produced who appeared languidly surprised at the sight of her.

"Hello, Frankie," he said. "I haven't seen you for an age. What do you want?"

"I want an air taxi," said Frankie. "You do that sort of thing, don't you?"

"Oh, yes. Where do you want to go?"

"I want to get home quickly," said Frankie.

Five minutes later they were off.

"FRANKIE," said Bobby, "why are we doing this?"

"I haven't the faintest idea," said Frankie. "But I feel we must. Don't you?"

"Curiously enough, I do. But I don't know why. After all, our Mrs. Roberts won't fly away on a broomstick."

"She might. Remember, we don't know what Bassington-French is up to."

"That's true," said Bobby thoughtfully.

It was growing late when they reached their destination. The plane landed them in the Park, and five minutes later Bobby and Frankie were driving into Marchbott.

They pulled up outside the vicarage gate, the vicarage drive not lending itself to the turning of expensive cars.

Then jumping out they ran up the drive.

"I shall wake up soon," thought Bobby. "What are we doing and why?"

A slender figure was standing on the doorstep. Frankie and Bobby recognized her at the same minute.

"Moira!" cried Frankie.

Moira turned. She was swaying slightly. "Oh, I'm so glad to see you. I don't know what to do."

"But what on earth brings you here?"

Frankie gave a little, incoherent, from South America of all places.

## CLINTONDALE

Clinton, March 5.—The Rev. D. Russell Branson, pastor of the Clintonville Friends Church, is listed again as one of the teachers in the school of religious education which is being held in the Dutch Reformed Church of New Paltz. The Rev. Mr. Branson will teach the new testament. The school will open on Tuesday, March 10.

Assistant Game Protector William Palmer of the town of Plattekill has been busily engaged in putting food about for the wild animals and birds in the various townships in this vicinity. He has been assisted in his good work by the various sportsmen's clubs hereabouts as well as many private farm owners.

Ralph Van Sice and Albert Gerard of Clintonville were callers in New Paltz on Friday afternoon.

The regular meeting of the Ladies' Circle of the Clintonville Friends Church was held on Wednesday afternoon instead of the regular meeting date of Thursday. Sewing bees are held every Thursday in the church parlors.

Mrs. Peter Rooney and son Aleck were callers on Friday evening at the home of Mr. and Mrs. Tracey Atkins in Brookside avenue.

Mrs. Leslie Ackhart was a caller at the home of Mrs. Chester Ackhart on Sunday.

Mr. and Mrs. William Schoonmaker of Marlborough entertained Mr. and Mrs. Burton Abrams of this village at their home on Sunday.

Mr. and Mrs. Clarence Ronk entertained Mr. and Mrs. Daniel Riley of Ardena at their home here on Monday evening.

Mrs. Lulu Sutton has returned to her home here after spending some time in Saugerties as the guest of her son and daughter-in-law, Mr. and Mrs. Raymond Sutton.

Mrs. Alvah Berrian spent one day the past week at the home of Mr. and Mrs. Charles Ellis, Jr.

Dr. and Mrs. Paul F. Bickert have returned to their home in Brooklyn after spending a few days here.

Miss Ina Gerald will leave on March 10 for New York City.

Mr. and Mrs. Eli DuBois entertained at their home near here on Sunday evening at dinner. Mr. and Mrs. Earl Gerald of Clintonville, Mr. and Mrs. Henry Dunn of Newburgh, Mrs. Mary Dunn and Mr. and Mrs. Isaac Roosa of Hurley.

The Rev. and Mrs. B. Russell Branson, of the Clintonville Friends Church, entertained at the parsonage of the church on Friday evening the young people. During the evening music and games were enjoyed and delicious refreshments were served.

Mr. and Mrs. Fred Fowler entertained at their home on Crescent road on Tuesday evening the members of the Homemaking class of the Highland High School. During the evening games, music, and dancing were enjoyed until a late hour when delicious refreshments were served.

Mr. and Mrs. Russell Minard entertained at their home near here in honor of the birthday of Mrs. Laura Minard. Among the guests present were Mr. and Mrs. William Minard and family, Mr. and Mrs. Harold Minard and family, Mr. and Mrs. Russell Minard and Mr. and Mrs. Philip Weiler. After dinner games and music were enjoyed and gifts given to Mrs. Minard. Mrs. Minard is the grandmother of Russell Minard.

Mr. and Mrs. Russell Minard entertained at their home near here in honor of the birthday of Mrs. Laura Minard. Among the guests present were Mr. and Mrs. William Minard and family, Mr. and Mrs. Harold Minard and family, Mr. and Mrs. Russell Minard and Mr. and Mrs. Philip Weiler. After dinner games and music were enjoyed and gifts given to Mrs. Minard. Mrs. Minard is the grandmother of Russell Minard.

Mr. and Mrs. Russell Minard entertained at their home near here in honor of the birthday of Mrs. Laura Minard. Among the guests present were Mr. and Mrs. William Minard and family, Mr. and Mrs. Harold Minard and family, Mr. and Mrs. Russell Minard and Mr. and Mrs. Philip Weiler. After dinner games and music were enjoyed and gifts given to Mrs. Minard. Mrs. Minard is the grandmother of Russell Minard.

Mr. and Mrs. Russell Minard entertained at their home near here in honor of the birthday of Mrs. Laura Minard. Among the guests present were Mr. and Mrs. William Minard and family, Mr. and Mrs. Harold Minard and family, Mr. and Mrs. Russell Minard and Mr. and Mrs. Philip Weiler. ## A Washington Daybook

By HERBERT PLUMMER  
 WASHINGTON — President Roosevelt's description of himself as the "quarter back" of the "new deal"—awaiting completion of one play before he calls another—apparently has been adopted by the administration's legal strategists in defending legislation before the supreme court.

The line of strategy being followed by government counsel clearly reflects supreme court decisions which have both invalidated and upheld administration policies.

The position of the government, for example, in support of the constitutionality of its alum clearance and low housing projects is based on the decision of the majority of the court in the AAA case.

The AAA decision, Solicitor General Reed set forth in his brief, had held for the first time that "the power of congress to authorize the expenditure of public money... is an independent and substantive power to spend for the general welfare."

Slum clearance, he declared, removes slum conditions which are productive of nationwide disease, delinquency, immorality and crime—a matter of national interest.

A "National Interest" Defense  
 DEFENSE of the Guffey act to regulate the soft coal industry, sometimes described as a "little NRA," follows the same line. The coal industry, admittedly one of the most depressed business fields, and one which neither the producers or miners by their individual or joint

efforts have been able to control, has been the subject of a long line of supreme court decisions.</

## Parent-Teacher Associations

### Federated Council

Robert Service, in his address to the Federated Council, Wednesday afternoon, March 4, presented many interesting and helpful truths about education for the adolescent of today. The principles of education for adolescent youth haven't changed, but the controlling environments and the pace of modern life have brought about more difficult methods of directing the adolescent. There is great waste in education because parents often demand a certain curriculum for the child whether he likes it or not.

The age of transition from child-

hood to maturity in a girl is from 12 years to 21, in a boy, from 14 to 25. These years, in which they learn to weigh the value of education in home, church, and school, are today being left too much to public agencies. This is bringing about a gradual, but none the less steady drift towards Socialism of the worst kind.

Education used to be based on the past, but now it must be a pavement of travel toward the future. The coming adolescent will have greater responsibility in world and international affairs than any past generation, if there is to be an enduring world peace.

Education cannot be given in the mass because the teachers are dealing with individuals. To one, a subject might seem a mere trill, to another, a necessity. The part of parents and teachers is to lead the child into the line he enjoys. Interest in a subject is the first requisite of true education. A simple

summing up of education might be to teach the child to be a self-supporting, decent citizen. The following education in home, church, and school, are today being left too much to public agencies. This is bringing about a gradual, but none the less steady drift towards Socialism of the worst kind.

March 18, "Keeping Fit." The adolescent period is a critical one and the question of proper nutrition and rest are discussed by an expert on the matters. Dr. Jane Hull, Supervisor WPA Nursery School and Parent Education Project, State Educational Department.

April 1, "Hurdle Number One: Living With the Family." Mrs. Richard W. Eaton, Regional Supervisor of Parent Education, Buffalo.

April 15, "Hurdle Number Two: Stepping Out in the World." Miss Margaret Hayes, Assistant Professor of Education, State Teachers College, Albany.

April 29, "Hurdle Number Three: Seeking Independence." Mr. Ernest G. Osborne, Associate in Parent Education, Child Development Institute, Columbia University.

May 13, "Youth Speaks for Himself." Dr. Randolph B. Smith, Supervisor, State Education Department, Albany.

Dr. May Peabody will be at the Governor Clinton Hotel Friday, March 6, at 7:45 p. m. to conduct the Parent Education Group. All of last year's group, and any new candidates are invited to attend.

Plans were completed and committees appointed for the Clare Tree Major play, "Hans Brinker," or the "Silver Skates," which the council is sponsoring at the high school, Wednesday, March 25, at 4 p. m.

### PATAUKUNK

Pataukunk, March 5—Mrs. Henry Burgher spent Tuesday evening very pleasantly as guest of Mr. and Mrs. Samson Osterhoudt.

Mr. and Mrs. William Booth still remain in Arena, where they are staying with her brother and family, Mr. and Mrs. Frank Beesner, who are ill.

Mrs. Samson Osterhoudt was in Ellenville on Tuesday. Measles are very prevalent here. So many families are afflicted that the school attendance has been cut in half.

Friends regret that Mrs. Cora Van Eten, who lives in rooms at Elmer Van Demark's, is ill. Dr. Williams is the attending physician. All wish her a speedy recovery.

All are sorry that "Les" Lawrence had the misfortune to fall and injure his arm, but are pleased to know he is gaining nicely.

Mr. and Mrs. Kenneth Wynkoop of Pine Hill were calling on relatives here on Monday.

Harry Malinka, who has been spending some time with his wife at Cherrytown, has returned to his work in New Jersey.

All are glad that Donald Sahler is recovering nicely from red measles.

Men are busy cutting ice on Jerry Simpson's pond.

Mr. and Mrs. Homer Wynkoop, Jr. and Mr. and Mrs. L. A. Wynkoop spent Sunday evening as guests of Mr. and Mrs. Clifton Palen. All are glad to know that they found Ralph Palen, who was recently operated on for appendicitis, gaining nicely.

Mr. and Mrs. Vaughn Decker spent Sunday in Kingston with her sister and family. They were accompanied home by Arthur Chipp, who has been ill at the home of his parents in Kingston. All are glad that he is able to resume his duties.

Mrs. Jacob Terwilliger and Mr. L. A. Wynkoop were in Ellenville on business Tuesday.

Everyone regrets that Harold Burzher has been ill.

Mr. and Mrs. Ramsford Pomeroy and Mrs. L. A. Wynkoop were in Ellenville on business Tuesday.

John Warush spent the week-end with friends in this place.

Clara Margaret Wynkoop spent Monday in Tabasco as guest of Mr. and Mrs. Asa Wynkoop. She also called on Mr. and Mrs. Vaughn Decker.

Earl Sahler spent Tuesday with friends in this place.

Mr. and Mrs. L. A. Wynkoop and Mr. and Mrs. Asa Wynkoop enjoyed Sunday dinner with Mr. and Mrs. Homer Wynkoop, Jr.

Mr. and Mrs. Samson Osterhoudt motored out of town where they spent Sunday with relatives and friends.

Alexander Herman Warush spent Sunday with his parents, Mr. and Mrs. John Warush, Sr., at Cherrytown.

Mrs. Merwin Deyo and sister, Jean Denman, were among those who attended the dance at the Golden Pheasant Inn, High Falls, on Saturday night.

Irving Van Vleet, Jr., spent the week-end very pleasantly with his wife and children at Arena. He returned to the home of his parents, Mr. and Mrs. Isaac Van Vleet, on Sunday afternoon where he is staying while his wife is with her parents, who are ill at Arena.

Many friends here are pleased to receive word that Herman and Jerry Quick are well on the road to recovery from red measles.

John Straton, Franklin Hyatt, Sr., and Richard Wiegler, Sr., spent the week-end with their respective families and returned to Weehawken, N. J., on Monday, where they are affiliated with the Ontario and Western Railroad Co.

A. Churchwell and family of upper Mombaccus were callers on friends here on Tuesday night.

L. A. Wynkoop has been cutting wood for the last couple weeks on his father's property.

### DRY BROOK

Dry Brook, March 5—Douglas Kelly of Margaretville and Mr. Mordock of Bloomville were callers in this place last week.

Mrs. Henry Rosa entertained 34 people at a covered luncheon last Wednesday. Receipts amounted to over \$10, which will be used for church fair work.

Mrs. Nathan Hayson held a covered luncheon Tuesday at her home in Seeger. A goodly number was present and time was spent quilting.

Morgan Garrison moved Louis Sciala's household goods to Jersey City last week-end. Mrs. Sciala had come down earlier to engage rooms.

One relief worker who was found lying on a cot in the middle of the afternoon trying to go to sleep said that he had been ordered to take a sheep census.

## STRIKE DEMONSTRATOR ROUTED

This demonstrator in the New York building service strike ran into trouble when he attempted to picket apartment buildings along exclusive Central Park West. This unusual photo shows a cop pounding him with a nightstick. Numerous arrests were made. (Associated Press Photo)

## Mrs. Viper and Family of 27 Snakes Doing Well

New York—A gaboon viper, rare species of a deadly African snake, recently gave birth to 27 "babies" at the New York Zoological park. At prices prevalent until the multiple births, the litter would be valued at \$12,500, but zoo officials feared the market now would collapse. The gaboon viper is a relative of the puff adder.

*Big things have happened*

since you or your friends bought refrigerators

### Visible COLD

The controls of the 1936 Kelvinator keep food compartment temperatures ideal, regardless of how hot it is in the kitchen. And you can see what the temperature is, because a Built-In Thermometer tells you that food is being kept safely, dependably cold.

### Visible ECONOMY

Today, for the first time in the history of the industry, Kelvinator provides you with a Certificate of Low Cost of Operation. The 1936 Kelvinator uses one-half or one-third as much current as many refrigerators now in use. This saving alone may justify replacing your old refrigerator.

### Visible PROTECTION

You may know today, beyond a shadow of doubt, that the refrigerator you buy will give you long years of service. Because the 1936 Kelvinator is backed by a 5-year Protection Plan, written and signed by the oldest company in the electric refrigeration industry.

IN EVERY CITY and town in America—in clubs and homes and on the streets—people are talking about Kelvinator—the new refrigerator.

Those who have put off buying any electric refrigerator—who have waited for new developments—have found in the 1936 Kelvinator the answer to every question a conservative buyer could ask.

Owners of automatic refrigerators are replacing them with new Kelvinators, not because the old ones are worn out, but because new developments, new discoveries, new inventions now offered for the first time have, by comparison, made former refrigerators obsolete, wasteful and old-fashioned.

The 1936 Kelvinator gives you Visible Cold. It maintains low temperatures in the food compartment to a new and amazing point of accuracy. And, for the first time, a Built-In Thermometer tells you in unmistakable figures how cold it is. You know food is being properly preserved, health properly protected.

It gives you Visible Economy. Many refrigerators now must be considered wasteful of electric current, for Kelvinator uses a half or even a third as much current as many now in use. And there can be no doubt about economy, for every Kelvinator is sold with a Certificate of Low Cost of Operation.

And it gives you Visible Protection. Every Kelvinator is backed by a 5-year Protection Plan signed by the oldest company in the business.

The 1936 Kelvinator gives a new meaning to the word "convenience." There are flexible rubber grids in every ice tray, automatic defrosting switch, sliding shelves, interior light—everything to lessen the burden of housekeeping.

If you are one of the 7 million owners of automatic refrigerators, or if you have not yet bought, see the 1936 Kelvinator, get all the facts about this new refrigerator, learn how easily you can own one by our liberal Deferred Payment Plan.

The government has forbidden the manufacture of a newly-discovered drug that is 20 times as powerful as morphine. But they still don't do anything about those political speeches, which are, as nearly as we can discover, 25 times as powerful. Boston Transcript

## FLUSH OUT 15 MILES OF KIDNEY TUBES

Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filtres which help to purify the blood and keep you healthy.

If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes may need flushing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, swelling up, puffiness under the eyes and dizziness.

If kidneys don't empty 3 pints a day and so get rid of more than 3 pounds of waste, poisonous matter may develop, causing serious trouble. Don't wait. Ask your druggist for DOAN'S PILLS which have been used successfully by millions of people for over 40 years. They give happy relief and will help to flush out the 15 MILES of kidney tubes. Get DOAN'S PILLS at your druggist.

## 'HELLO AND GOODBYE' AS TWO FAMOUS MEN MEET

Here is the scene as Charlie Chaplin, film comedian, and George Bernard Shaw, Irish wit and playwright, crossed each other's paths at Honolulu on trips around the world in opposite directions. Shirlene Quinn, Honolulu novelist, is the third member of the party. (Associated Press Photo)

## FLASHES OF LIFE SKETCHED IN BRIEF

**Footnote On Fame**  
Miami, Fla.—Amelia Earhart Putnam, first woman to fly the Atlantic and holder of many an air record, knows that "fame is fleeting."  
"I've been mistaken for many persons, seldom for myself," she told an audience here. "I've been congratulated on swimming the English Channel and mistaken for virtually everybody, from Mabel Walker Willebrandt to Col. Lindbergh's grandmother."

**Signals Crossed**  
Colorado Springs, Colo.—The Rev. Paul Roberts' watchdog slept soundly while burglars ransacked the clergyman's home.  
But when detectives arrived to investigate the burglary the dog refused to let them in.

**Please**  
Chicago—Some entries in the Chicago park district's contest for dip-

**omatic ways of saying "Keep off the grass":**  
"I am a new seed so please take heed."  
"The seed is sown, so let it sprout, or park police will throw you out."  
"Please scram."  
"You wouldn't want to be bald. Let mother nature have her hair, too."

**The South Today**  
Ashville, N. C.—Horse and buggy days are no more in Buncombe county.  
Officials, preparing the 1936 tax lists, dropped buggies and added airplanes.  
"Nobody lists buggies here anymore," commented S. C. Hunter of the tax department.

**Nothing But the Truth**  
Rockford, Ill.—Brewer Larson bought some beer. To Bartender Morris Cortez he said, "Here is a \$5 bill—it's WPA stage money." Cortez

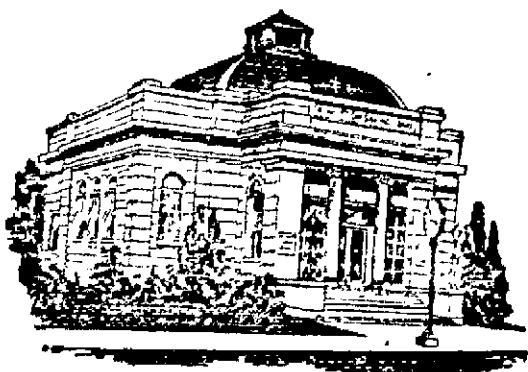

tes laughed, took the bill, gave son the change.  
Then Cortez went to the teller told him the bill was stage money.  
The police questioned Larson informed Cortez they didn't what they could do about it.

The new vogue of serving de when a group meets to play br for a committee meeting, clu other group activity is popula many localities. It is a fashio sible enough to become ge practice.

### HIGH FALLS

High Falls March 4—Mrs. Elsie Hart attended the Ulster County Girl Scout Council, held the past Thursday afternoon at the home of Mrs. Van Dyke Basten of Kingston.

Charles Neff has been chosen vice president of Epsilon Delta Chi of New Paltz Normal.

The Girl Scouts are planning to give a play in the near future. Further notice will be given.

The Ladies Aid Society will serve lunch at the church on Thursday, March 5. The menu is as follows: Meat loaf, escalloped potatoes, stewed tomatoes, jello, cookies and coffee.

After the luncheon the ladies will hold their regular meeting with an all day quilting.

The meeting of the communicants class will be held on Friday evening of this week at 7:30 o'clock at the parsonage.

Communion service in the Reformed Church on Sunday was well attended. The communion thought as presented by the pastor was "The Cross in Christian Experience."

Scripture reading John 6:22-29. There were two from the Reformed Church present at the first session of the leadership school.

Mrs. J. M. Barnhart of Kingston, who has been spending the week-end with her son, Jesse Barnhart, and family took dinner with her sister, Mrs. Jesse Snyder, at Locust Hurst Cottage on Monday.

Mrs. Jesse Snyder, who also came for her daughter Frances, who attended the Girl Scout meeting in the High Falls public school on Monday afternoon.

Mr. and Mrs. George N. LeFevre are enjoying a vacation in Florida. Their son, Ray LeFevre and wife, of Lomontville, are taking charge of their home during their absence.

Isaac Gheer is on the grand jury for the week and his many customers will miss him on the route, but by telephoning him at his home they can arrange to have him bring things out for them from the city, if needed.

Mrs. Phoebe Brodhead and daughter, Alta, of Walden visited their home here the last week-end. They

will soon be thinking of returning for the spring and summer season, and their many friends will be most pleased to welcome them.

Ed Paris is ill at his home with the flu.

There have already been a few callers to see the little lambs on the Ayers' farm. There are now about 40 and all the kiddies as well as group-up folks enjoyed the sight.

Mr. and Mrs. Frank Davis of Kingston called on her father on Sunday afternoon.

The missionary meeting held at the home of Mrs. Thomas Snyder the past Friday was most interesting and those in attendance were glad they had taken advantage of the opportunity of enjoying it. A number also listened in to the world wide program coming over the radio on Friday morning.

The Rev. C. C. Chilton of Hurley called on the Rev. Clarence Howard and other friends in this place on Monday morning.

The side roads have been and are still in a bad condition, being very icy and slippery and dangerous traveling for both pedestrians and motorists.

Records Prove Modern "Bossy" Better Milker

Urbana, Ill. (AP)—"Bossy," the patient milk cow, is doing better work.

In the opinion of J. G. Cash, University of Illinois dairy specialist, the average cow of today is as big an improvement over her sisters of 10 years ago as modern streamlined automobiles are superior to the old gas buggies.

Setting the standard for advancements in the milk cow "models" have been the dairy herd improvement associations, says Cash. At present there are 55 of these associations, sponsored by the agricultural college of the university, in which 20,000 cows are being tested for milk and butterfat production.

Looking back over past records in Illinois Cash says 1925 dairy herd improvement association cows averaged 282 pounds of butterfat, against an average of 324.9 pounds in 1934.

"On the basis of 1934 prices the late-model cow cleared \$64 above feed costs," he says. "On this same basis the 1925 cow would have cleared \$52 or \$12 less."

"If dairy herd improvement association farmers had obtained no better production in 1934 than they did in 1925, the total net return above feed costs in 1934 would have been \$249,600 less for the 20,000 member cows of the state."

Because of a shortage of feed following the 1934 drought, Cash says that average production for 1935 was somewhat less than in 1934.

"With less feed available, production was bound to go down, but it is expected that the amount of butterfat produced for each pound of feed will be maintained because of better cows and more careful feeding and herd management," he says.

Fifteen deaths were attributed to the storm in New York state on January 22 and 23, according to the weather bureau maintained at Cornell by the United States Department of Agriculture in its report for that month.

## Thousands Helped By Loans, Grants

Ithaca, N. Y., March 5—More than a thousand families in New York state are now being aided through the rural resettlement division of the Resettlement Administration, according to state director, W. E. Georgia who also announces the addition of three new home economics and tax rehabilitation agents to work throughout the state.

Grants have been made to more than 600 families and loans to more than 400 families, he says. The total sums have been about \$250,000.

"Spring activity on the farm means increased demands on the agents and home economists who must investigate families in need, make recommendations, and work with them so they may be self-supporting. The peak season lies just ahead. Within the next eight months, rehabilitation is expected to be provided for at least 2,500 farm families, or about 14,000 persons."

### Start This Week

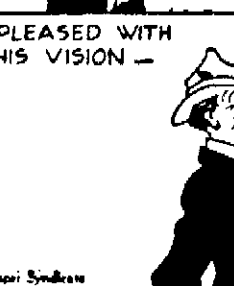

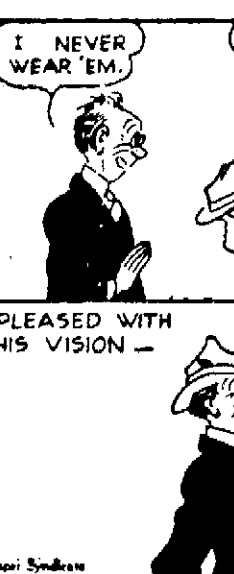

The new workers start this week in areas where demands have been heaviest, but they will be moved to other areas as the need arises, says Mr. Georgia.

Of the rehabilitation agents, one starts in district 2 covering the counties of Dutchess, Ulster, Orange, Putnam, Rockland, and Westchester; the second goes to district 5 for work in Essex, Warren, and Washington counties; the third is assigned to district 11 comprising Cortland, Broome, Madison and Chenango; the fourth starts in district 13 that covers Tioga, Tompkins, Chemung and Schuyler. The fifth agent is assigned to start in district 14, which includes Steuben and Allegany; and the sixth works in district 15, Wyoming, Erie and Livingston counties.

The three new home economists are assisting in the following counties:

## HEM AND AMY

## Woodstock Level Club Held Meeting

The Woodstock Level Club met for their usual bi-monthly meeting at their rooms over The Nook on the night of February 27.

After the usual routine business some time was spent in a discussion of the proposed by-laws. There was a general talk on the coming card party to be held on Thursday and the dance scheduled at the Firemen's Hall on March 17.

After the business meeting adjourned the members partook of a lunch of cakes and coffee. The rest of the evening was devoted to cards and conversation.

The ladies of the Level Club held their social conference on the night of March 2. They spent most of the evening in preparations for the coming March 17 dance. They are making great preparations for this event.

Arrangements have been completed to have music for both the modern and the old-fashioned type of dances, so those who attend can be assured of a variety of amusement. Refreshments will also be sold at moderate prices. The ladies are planning to make this the big event of the winter and hope for a large response from the public.

**Benefit Card Party**  
A card and bunco party for the benefit of the Greek Locks School will be held at the school, Friday evening, March 6, at 8 o'clock. The blic is cordially invited to attend.

## COURSE ON MARRIAGE POPULAR AT UNIVERSITY.

Oxford, O. (AP).—Students at Miami University here want to learn about marriage.

A course open only to seniors won such favor among 40 students selected for a preliminary trial last year that 150 men and women thronged to the class when it was made available for all seniors this year.

The course consists of eight lectures, followed by an open forum in which students submit questions and join in discussion.

The supreme court judges have been referred to as "fossils" in the House of Representatives. At least it's better that they should be than the whole country, which would be if they weren't there.—Boston Transcript.

## A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you can't afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

## NURSE FIRST HAWAII VET TO SIGN UP FOR BONUS.

Honolulu (AP).—The first Hawaii war veteran to sign a bonus application was Mrs. Frances H. Layton, who served 10 months over-seas as a

nurse at the American Base Hospital No. 35, Mars-sur-Alier, France.

After signing she helped several score buddies with their applications.

If you are a pedestrian you don't want to get that run-down feeling.

OPPORTUNITY

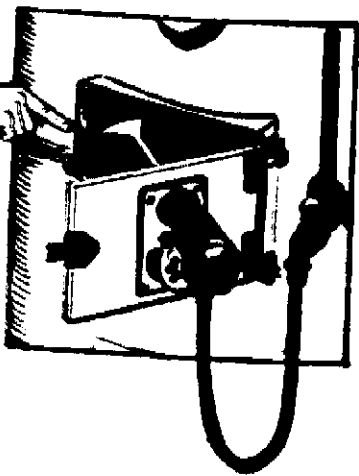

to try  
Automatic  
Seasonal  
Heating

with the  
**FIREDOR  
BURNER**

OPPORTUNITY is just the word. Just have your heating contractor install a Firedor gas burner in your furnace—he can do it in a few hours, and you can take it out in a few minutes. No changes in your furnace, except to lift off the fire door and put the Firedor burner in its place.

The Firedor burner is designed for Spring and Fall heating only. It gives you a chance to sample gas heating at the season when you'll appreciate it the most, because you escape repeated fire-building.

This is the Firedor burner which is set into your furnace in place of the stoking door. It is designed for Spring and Fall use.

### Kiwanis May Again Supply Milk for the Children in Schools

Kingston school children in need of milk may again be supplied according to plans of the Kiwanis Club, formulated at a meeting of the board of directors Wednesday evening.

The Kiwanis Milk Fund, which was sufficient to supply the wants of most of the school children for a number of years, was withdrawn two years ago when the state relief agencies decided to supply milk to the school children, and since that time the local club has centered its efforts on other projects.

Superintendent of Schools Van Ingen brought attention to the milk situation recently, declaring that there was a need for milk and that state agencies had stopped supply-

ing milk last fall. He requested that the Kiwanis Club again take over the milk plan for school children if the club were able.

At the meeting last night it was decided to have Mr. Van Ingen furnish figures on the number of half pints needed for each of the schools, with the idea that the club would supply funds to furnish at least a part of the amount needed. The club also offered to attempt to find an additional source of revenue if it was not able to take care of the entire burden itself.

Considerable apprehension was felt concerning the amount of money needed to supply the milk, surveys having shown that when the state took over the work the amount of milk supplied increased very rapidly to a point where the club would not be able to handle it as a project. It was suggested that if the survey showed that the amount needed could be returned to near the amount handled by the club in the past the club might be able to handle the project again.

#### Highland

Highland, March 5.—Draping the charter of Highland Grange in memory of Mrs. Dora Elliott was a feature of the meeting Tuesday night. Resolutions of sympathy were adopted and a copy to be sent to the family of the deceased and a copy placed among the records. Mrs. John Auchmoody was elected a delegate to attend Pomona Grange meeting on Friday at Plattkill. Edwin Lockitt and Little Isabella Gruner, daughter of Mr. and Mrs. Louis Gruner, were reported ill. The members voted to support a bill to pay indemnities for bovine animals killed on account of Bang's, mastitis and other infectious diseases. Dancing followed the meeting and refreshments were served by Mrs. Mary H. Carroll, Henry Ellings, Mr. and Mrs. Schuyler Fredericks, Mrs. Arthur Bartlett, Philip T. Schantz, Mrs. Verlie Jennings, who served sandwiches, cake and coffee to the 50 present.

### SOUND PROSPERITY ERA SEEN BY FORD

"Lower Prices, Higher Wages," His Prescription.

New York.—Advising business men to stop worrying and to "go safely and resolutely ahead with wealth production, followed by wealth sharing through high wages and low prices," Henry Ford looks forward today to a future of "sound prosperity" than he has ever dreamed of in the past.

Industry can absorb all employable among the unemployed; great development lies ahead for the automobile; a vast job of modernization must be accomplished in America replacing heavy materials with lighter alloys; industry should be "decentralized" and school children must be "fully prepared to push on eagerly along new lines," Mr. Ford declares in a signed article appearing in the American Magazine.

Mr. Ford distinguishes between two kinds of prosperity in the article. One is expressed, he says, by "bouncing stock markets, crowded night clubs and spectacular riches for the few." Sound prosperity he describes as "an ever-widening distribution of useful goods and services."

"If we keep our heads we may expect to see in the future a greater measure of this sound kind of prosperity than we have ever dreamed of in the past," he declares.

"Whether America is doomed to another cycle of boom and collapse does not depend on the government which can neither help nor hinder much. It depends upon the intelligence, decency and self-control of American business men."

Mr. Ford states he himself is absolutely uninterested in political office and scores business men for bothering with politics and the stock market.

He believes he can be "much more useful" tending to his own business.

The new law increasing inheritance taxes does not worry him, nor do "reasonable taxes" on business.

Eliminate worry, which he describes as "one of the most wasteful things in the world," he "expectant of change" and push ahead, sums up Mr. Ford's current philosophy.

Mr. Ford's own prescription for prosperity is "constantly turning increasing efficiency into lower prices and higher wages."

"Only the minds who see that this is reasonable and practicable are going to stay in business," he insists. "Business is purely a service and not a bonanza."

#### Fifteenth Century Ship to Cross Atlantic Ocean

Lisbon.—A small "fifteenth century ship" correctly built in every detail will cross the Atlantic from Lisbon to Santa Cruz, Brazil, next May to commemorate the discovery of that part of Brazil by the Portuguese sailor, Pedro Alvares Cabral.

In 1500 he set sail from Portugal. He was bound for the East Indies to avoid being becalmed off the coast of Africa, he took an extreme westerly course which led him to the then unknown coast of Brazil.

He landed and claimed the country for Portugal—naming it "Terra da Santa Cruz."

This voyage is to be repeated next May in a ship built to resemble exactly Cabral's own. When it sails, its captain will be Admiral Cago Continho, who in 1922 made the first airplane flight from Lisbon to Brazil.

A deputation of Portuguese authors and journalists will be the passengers, while the cargo will be samples of Portuguese manufactures.

The little ship will be escorted by a flotilla of destroyers.

#### Spanish Women Doffing Shackles of Convention

Madrid.—The long-sheltered women of Spain have been entering fields once closed to them in increasing numbers. Twenty-five years ago women in Spanish universities were rare, but today in some faculties, such as philosophy and literature in the University of Madrid, there are more women than men.

Sports have begun to make a wide appeal, particularly in Madrid, where hundreds of girls are swimming in the summer and skiing in the winter. Every week-end hundreds leave Madrid for a day on the slopes of the nearby Guadarrama range.

The republic gave Spanish women the vote, and in Madrid more women voters are registered than men.

#### Planets "Who's Who"

Berkeley, Calif.—One thousand and ninety-one minor planets discovered between the years 1901 and 1929 have been listed in the research surveys of the University of California students' observatory. This "Who's Who" of the planets gives all the available data on as many of them as possible.

#### Famous Yukon Town Buried by Dredges

Dawson City, Y. T.—The famous old placer town of Bonanza, better known as Grand Forks, located at the junction of Bonanza and Klondike creeks, 13 miles from Dawson, has been buried deep from aerial vision by the big dredges of modern gold mining companies. At one time Bonanza had 2,000 inhabitants and was the center of trade for 1,000 more. Today the town is covered with gravel, thrown aside by the giant dredges.

#### Whole Power

A scientific magazine advises that a baby whale when born weighs as much as 4,000 pounds, and at seven months, 30,000 pounds. The power of the whale is stupendous, for when full grown its strength is about 47 horsepower and its weight 120 tons.

Roberts, Kenneth—For Authors Only.  
Woolcott, Woolcott's Reader.

One remarkable thing about statesmen who go to Washington is that they never get homesick. They are always willing to stay at least four years longer.

#### Mounted Police Inspire Respect, Chicago Finds

Chicago.—The mounted policeman is maintained in Chicago because he commands most respect from motorists, according to Capt. David I. Flynn of the traffic division.

"Get a man on horseback out in the street and people instinctively slow up," the captain maintains.

That's why there are 86 mounted men in his division.

"And for restoring order in a riot," he said, "there is no substitute for a plunking, rearing horse in the hands of an expert rider. From the high elevation of his saddle a policeman intends to be obeyed, and no back talk."

#### Water for Senators Costs Above 7,000

Washington.—Senators drank more than \$7,000 worth of mineral water during the fiscal year ended June 30, 1935, and spent over \$1,000 for ice to cool their beverages, the annual report of the secretary of the senate showed. The report also showed \$205,575 for miscellaneous items, including about \$650 for paper cups, \$21.00 for six leather dusters, \$12 for silver plating the water pitcher in Vice President John N. Garner's office, and \$700 for keeping the clocks wound and in good condition.

## HIGHLAND

Highland, March 5.—The nurse committee will hold its March meeting at the Health Center on Tuesday afternoon. Mrs. James Callahan is the chairman.

Mr. and Mrs. Elmer Fisher with Mrs. James Swift and Miss Ethel Swift drove to New York on Friday afternoon. Mrs. Swift joined relatives in Brooklyn while the others saw the opera Lohengrin.

Mrs. D. H. Kurtz, Mrs. Jesse Olson, Mrs. Walter Constable and Mrs. Louis A. Martin entertain on Wednesday afternoon next at a silver tea at the home of Mrs. Kurtz. These teas have become very enjoyable and have netted the Auxiliary Club from \$8 to \$10 each afternoon's entertaining.

The infant son of Mr. and Mrs. A. Herbert Campbell is very ill this week.

The March meeting of the trustees of the centralized school district is held at the school on Friday evening.

Fred Snyder of Kingston, who spoke to the Men's Club of the Methodist Church Friday evening, has been the talk of all who heard him for the many outside interests he brought to them. He asked them to consider many events that little words of five letters had such significant meaning: Fire, votes, taxes for the future as well as the countries of Japan, Spain, Italy. There were 54 men in attendance at the supper and to listen to the speaker, Mr. Snyder is soon leaving for Japan and it is hoped that months later on his return that he can be heard here in an open meeting. Mr. Snyder answered many questions asked at the close of his talk and finance was one subject that interested the men.

A program of Italian opera was rendered Tuesday afternoon at the home of Mrs. George E. Deau with Mrs. Edna Curry assisting hostess. Mrs. Arthur Kurtz had arranged the following numbers: Reading, "Lucia di Lammermoor", Mrs. Helen D. Brown; piano duet, "Sextette from Lucia di Lammermoor", Mrs. Nathan Williams, Miss Edna Curry; reading, "Rossini", Mrs. William H. Maynard; vocal duet, "Firm is the Ice", Verdi, Mrs. George Hildebrand; Mrs. Irving Rathgeb; piano solo, "Grand March from Aida", Mrs. Willard Burke; piano duet, "Fandora", Rossini, Mrs. George Hildebrand, Miss Ruth Martin; vocal solo, "Caranome", Miss Rose Symes; vocal quartet, "Italian Salad", the Misses Rose Symes, Ruth Goldsmith, June Reynolds, Mrs. Gladys Meara; vocal solo, "Oh, Robert, Beloved", Mrs. Gladys Meara. Mrs. Irving Rathgeb, president, presided at the business meeting before the program and the members voted to hold an open meeting at the close of the season in May and have outside talent. There was a large attendance of members and the hostesses served refreshments at the close of the afternoon.

Mrs. Irving Rathgeb and Mrs. George Hildebrand went to New York this morning and while there will attend the opera.

Mrs. Emma Bradt spent the weekend with her daughter, Mrs. Fred Goldfinger, in New Hyde Park, L. I. Mr. and Mrs. Gordon E. Wilcox entertained for dinner Tuesday evening Mr. and Mrs. Clarence Tompkins, Miss Frances Fagan and Mr. and Mrs. Harold Sutton of Clintondale. The event celebrating Mr. Wilcox's birthday.

Mrs. James Swift returned Monday evening after a week-end spent in New York.

## Copenhagen Porcelain Is Marked With Wavy Lines

Royal Copenhagen porcelain has a regal background. The first attempts to found a pottery in Copenhagen are shrouded in mystery. Between 1730 and 1758 suitable kaolin was discovered on the Isle of Bornholm and pottery-making was started under the direction of Melchior, a modeller from Meissen. But there is no definite information until about 1760, when a Frenchman named Lournier was making a soft paste at Copenhagen. These efforts were short-lived but may account for the French appearance of the porcelain, says a writer in the Kansas City Star.

In 1775, King Christian VII of Denmark gave the enterprise his support and the government took over the factory which had been re-established by Muller, a chemist who used the hard paste.

The Royal Copenhagen mark is three wavy lines, said to denote the three belts of sea which divide the islands of Zealand and Funen from Jutland.

## I Ate What I Liked... Fat Slipped Away

It was so easy—I did not go on a diet. I took no exercise. I did not weaken my body with drastic purgatives. Yet fat slipped away. Each day I felt myself growing lighter, more slender. Now my figure is lovely, graceful. And I never felt better in my life.

That, in brief, is what thousands who have reduced the Marmola way might tell you. Four times a day they take a little tablet containing the right quantity of a world-famous corrective for abnormal obesity. A corrective prescribed by physicians everywhere and acknowledged to be the most effective known.

Since 1907, more than 20 million packages of Marmola have been purchased. Could any better recommendation be had?

Today—buy a package of Marmola, and start at once. Soon you will experience Marmola's benefits. When you have gone far enough, stop taking Marmola. And you will know the day you first discovered this marvelous reducing agent!

Marmola is on sale by druggists everywhere—from coast to coast.

## MODES OF THE MOMENT

There is no question as to the gracefulness that "back fullness" adds to a dinner or formal gown. Those sweeping lines tend to give height, and added height, of course, makes for a slender silhouette—the quest of all women. Navy and white is a very smart combination. It is even more so when the contrasting white is of lingerie—because lingerie touches are considered so feminine and chic. The dinner formal illustrated here includes all of these important new style features. It is done in navy taffeta with a white jacket and has graceful sweeping lines produced by generous back fullness. The front line of the gown is straight with the set-in fullness placed directly at back. A self ruffle softly trims the square front neckline while the back is low cut. Embroidered white net is used for the fitted jacket which closes at front with a row of tiny self-covered buttons. The full peplum is cut to follow the graceful lines of the skirt while the sleeves show the new "width at the shoulder and tight forearm" effect.

## Look Your Best in Smart Crochet

Household Aids by Alice Brooks

Add These to Complete Your Spring Wardrobe

PATTERN 5347

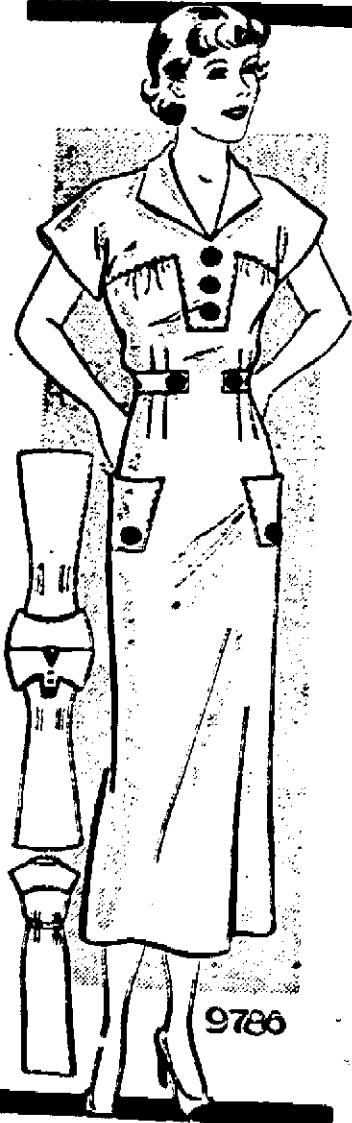

Crochet a perky beret—its matching bag, and we'll wager you turn right around and begin a second set, in your next most becoming color. It's that appealing, practical and easy-to-do! The simple combination of lacy stitch accented with decorative popcorns is quickly learned, and soon the easy stitches are rolling off your hook. Use white or colored gumpe, or a mixture of wool and rayon. Note the double row of popcorns for the smart bag top.

In pattern 5347 you will find complete instructions for making the set shown; an illustration of it and of the stitches needed; material requirements.

To obtain this pattern send 10 cents in stamps or coin (coin preferred) to the Kingston Daily Freeman Household Arts Dept., 259 W. 14th street, New York, N. Y. Be sure to write plainly your NAME, ADDRESS and PATTERN NUMBER.

## MARIAN MARTIN BEGINNERS' FASHION TURNS OUT A "GOOD SPORT"

PATTERN 9786

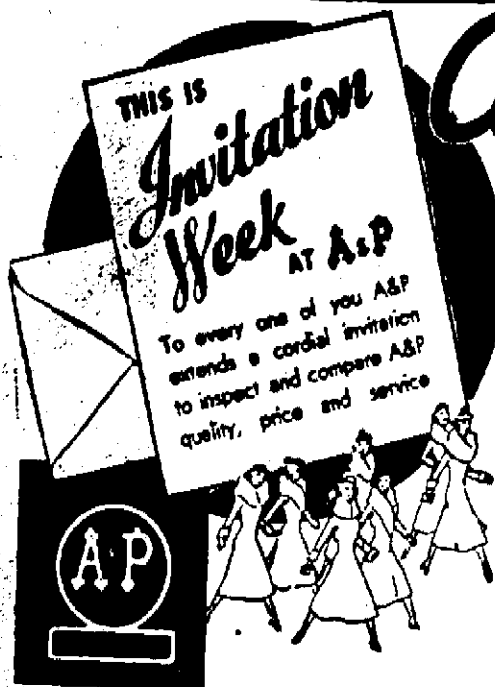

Beginners! How about a Spring resolution, one that'll make you the "best dressed" in your set, on a next-to-nothing expenditure? It's agreed, then, you're going to sew—this easy way, of course and with this simple, yet sporty Marian Martin pattern which turns you out in perfect form for any sport you want to name—promising action and ease from sun-up to sun-down. Just four large pattern pieces joined together, with darts to nip the waistline, gathers for bodice fullness, sporty pockets that take a diagonal cut and button trim—and your frock's virtually completed. Stencils, piping, ham, pique, cotton tweed, peasant crash, or tub silk will turn you out in style. Complete. Diagrammed. Marian Martin Sew Chart included. Pattern 9786 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 40 and 42. Size 16 requires 2½ yards 36 inch fabric.

Send fifteen cents in coins or stamps (coins preferred) for each Marian Martin pattern. Be sure to write plainly your name, address, the style number and size of each pattern.

Be sure to send for our new Spring Pattern Book! You'll be happy as a lark over the way it simplifies your clothes problems! Dozens of easy-to-make, flattering designs—smart both for now and later in the season. News of Spring fabrics and accessories. Special slenderizing designs. Clothes budget hints. Patterns for children, misses, adults. Price of book fifteen cents. Book and pattern together, twenty-five cents.

Send your order to Kingston Daily Freeman Pattern Department, 259 W. 14th street, New York, N. Y.

## RIGHT AND WRONG LETTERS

## DON'T MAKE LETTER-WRITING BLUNDERS

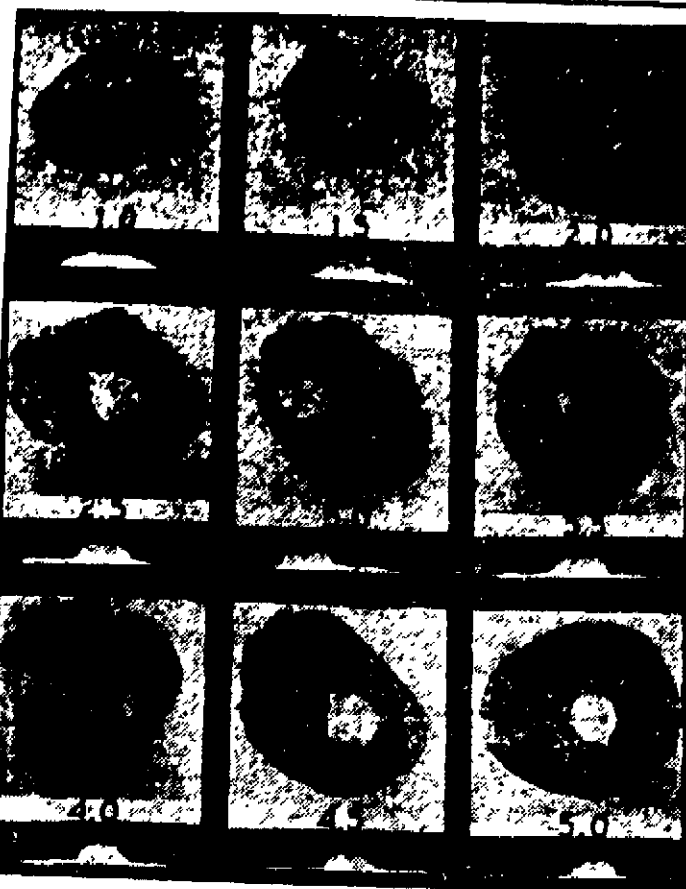

When Harry gets these two letters from Emma and Ruth—what do you imagine he is going to think of the writers?  
He'll be surprised for one thing. He has always thought of Emma as a lively, entertaining girl. But when he sees that round, ill-formed hand writing, that salmon pink note paper with the wretched monogram and fancy lined border, he is certainly going to be made aware abruptly of the sad shortage in Emma's social experience and background.  
He's going to feel better when he reads Ruth's letter. He will appreciate the plain white paper, simple, but of good quality, and the good-looking initials. As he reads the letter he will feel that Ruth enjoyed writing it, that she'd like to see him again, that the town he has left is an interesting place to come back to.  
Those hikes in the spring, picnics and tennis in summer, the old crowd at dances and jamborees—he'll like to remember them. And he'll want to come back to a girl like Ruth!

**Kingston Daily Freeman Home Institute, 109 W. 19 St., New York, N.Y.**

## They're All Fresh, but--

Fresh eggs are fresh eggs, but there's a lot of difference in them just the same. All of the eggs pictured above were photographed the day they were laid at the Cornell poultry department.

From left to right, the first three are Fancy eggs, the best possible; the next two are grade A, the next two are grade B, and the last two, grade C. Nearly 4,000 eggs had to be broken in the scientific test before these nine could be found. The pictures were developed as a means of scoring eggs for quality, as housewives see the eggs.

Some hens lay eggs with the white part firm and jelly-like, as in the three best eggs shown. In others the whites are weak and watery, the same as occur with age, but age also brings a flattening or a tendency of the yolk to spread. Differences in these fresh eggs pictured are caused by differences in hens. Note the side views as well as the top views for the relative firmness or watery-ness of the egg whites.

## Girl Scouts

## ULSTER COUNTY COUNCIL

## Council Meeting

The Ulster county council of Girl Scouts held a meeting at the home of Mrs. Van Dyke Basten on Thursday, February 27, at 2:30 o'clock. Those present were Miss Helen Hasbrouck and Mrs. V. DeWitt of New Paltz, Miss Eleanor Rose and Miss Eaton of Ellenville, Mrs. Ashton Hart of High Falls, Mrs. McManus, Mrs. McKinnon, Mrs. Basten, Mrs. Bogart, Mrs. Vanderveer of Kingston.

The Secretary's and Treasurer's reports were read and accepted. Reports from various troops were given. It was decided not to have the annual Ulster county rally at Camp Wendy in June, but each troop

or neighboring troops are to hold their own rallies and courts of awards in the spring. The troops and leaders throughout the county are urged to spend a Saturday at Wendy before June 15.

The most important matter discussed was plans for the coming season at Camp Wendy. Miss Helen Hasbrouck, the camp chairman, reported the progress made thus far. Miss Lillian Parrish, the director of last year will return in the same capacity. She has her staff practically completed and many of last season's counsellors are returning, also Mrs. Bush, the excellent cook. Mrs. John McKinnon of Kingston, was appointed a member of the camp

committee from the county council. Miss Hasbrouck gave a report of Camp Wendy for 1935 which was most gratifying. Among the improvements last year were two Brownie cabins, a new bridge to the Pioneer Unit, a new outdoor kitchen and stove in the Pioneer Unit, also water piped to this unit. There was a new kitchen sink in the main kitchen, and the dock and diving boards were much improved.

About 200 girls attended camp, from 35 different communities. Ulster county having 48, Dutchess county 15, White Plains, 53 and Orange county 22. There was a well trained staff of 22 counsellors besides the director. All the unit heads and most of the other staff members had had training at a national Girl Scout Training camp.

A registered trained nurse who had experience in public health work, was a resident in the camp. There were practically no illness and not any of a serious nature, and no accidents.

There was a well balanced program, stressing swimming, with more hiking and out door cooking. A popular feature for experienced campers were Gypsy Trips when older girls under adequate leadership, set up their own primitive

camp for three days at a distant camp site. A trip last year was to a beautiful spot below Minnewaska Falls. The Camp Committee another equally attractive mind for this year.

At the conclusion of the session, tea was served by the girls and the meeting began formal.

**Warned to Get Permit**  
The Pistol Permit Bureau court house advises the more than 200 persons in the county who not renewed pistol permits to the matter at once, as possession otherwise is unlawful. Office 9 to 4 daily, to noon Saturday and March.

**Brazil Nut in Heavy Shell**  
In their wild state, Brazil nuts have a marked resemblance to coconuts, known as our own half an inch and of a bullet like toughness. Average shell, loaded with from 25 nuts, weighs four pounds. They were to be struck on the head of these missiles while standing a tree, it would be fatal.

## SKILL

is the distinguishing mark of the Master

Craftsman.

Only the skill of a Master Craftsman can

produce a consistently fine product. This

holds true whether it's Baking, Engraving or

Cabinet Making.

Our Bakers can truly be called Master

Craftsmen. . . through their skill they bake

bread that is consistently good—every day!

PORT EWEN

Port Ewen, March 5.—The Rev. Philip Goertz pastor of the Reformed church will be the speaker at the union service to be held in the Methodist Episcopal church at 5:30 o'clock this evening.

Tickets are now on sale for the turkey supper which the Official Board will hold in the Methodist Episcopal church house at 5:30 Thursday evening, March 12.

Jane Munson attended the jumping contest at Rosendale Saturday and was one of the guests at the reception and dance held later at Rosendale Hall for the Norseman Ski Club.

Mr. and Mrs. George Coutant and Mrs. H. Minard of Marlborough and Louis Minard of Poughkeepsie were recent guests of Mr. and Mrs. William D. Yesso.

Fire in State Hospital From Forgotten Iron

There was considerable excitement in Middletown about three o'clock in the morning, Wednesday, when the State Hospital fire alarm sounded, as people remembered the fire which ruined the main hospital in October, 1921. When the firemen arrived they found that the fire had been put out by the hospital's own fire department, headed by John Fay.

The fire was caused by an electric iron which had been turned on in a room on the third floor of Talcott Hall, the afternoon before and forgotten. The iron had burned through a table, dropped to the floor, and ignited the flooring and a floor beam. About \$100 damage was caused. The building houses some 400 patients.

PRESBYTERIAN MEN'S CLUB MEETING FRIDAY

Members of the Elmendorf Presbyterian Men's Club are anticipating a fine time Friday evening, when the club meets in the church hall. A delicious supper of corned beef and cabbage will be served promptly at 6:30, immediately after which the new officers for the coming year will be elected and the reports of activities during the past year will be given. An interesting time is in store for all who attend, and the full membership of the club is expected at supper. Retiring officers are Duane Porman, president; Robert D. Evans, vice president; Harold Smith, treasurer, and Earle Tongue, secretary.

Public Hearing March 17

Albany, N. Y. (P)—The Republican-controlled Assembly Public Welfare Committee announced today that Governor Lehman's social security program would be aired at a public hearing March 17.

Colonial Bowlers Win Sweepstakes

Bucky Harris, of the Colonial team, won the sweepstakes bowled at the Emerick alleys Wednesday night, with a score of 611 for the three games, rolling 200, 218 and 223.

Ken Williams, also of the Colonial, took second place with a total score of 590.

About 20 of the most prominent bowlers of Kingston and Saugerties, entered the sweepstakes.

THE JOINERS

News of Interest to Members of Fraternal Societies

St. Mary's Branch, No. 256, L. O. O. F., meets tonight at 8 o'clock at St. Mary's Hall.

District Deputy Mary J. Howard, accompanied by William H. Wiles, assistant grand lecturer, will make her official visit to Kingston Chapter on Friday evening, March 6, at Broadway and Strand. All members and Master Masons are invited.

Two Slum Cases Dismissed

Washington, March 5 (P)—Two New Deal cases involving the government's right to condemn land for PWA slum clearance and low cost housing projects were dismissed today by the Supreme Court at the request of the government. This action leaves in effect lower court decisions that the government did not have the right of condemnation for such purposes. The decisions grew out of projects in Louisville, Ky., and Detroit. The action was requested by Solicitor General Stanley Reed. He gave no reason.

Relief Conference

Washington, March 5 (P)—A White House conference to consider the important question of new relief needs was summoned today by President Roosevelt. Called to meet with him tonight were Secretary Morgenthau, Harry L. Hopkins, Works Progress director; Daniel W. Bell, acting budget director, and Corrington Gill, Hopkins' assistant.

Savings

WHEN A WOMAN GETS SO SHE CAN BE READ LIKE A BOOK IT'S TIME SHE TURNED OVER A NEW LEAF.

FINANCIAL AND COMMERCIAL

New York, March 5 (P)—Strength of carrier and specialty stocks was the principal bullish influence in today's market.

There was a little profit taking in a few of the steels, motors, utilities and mines, but selling apparently was not of an urgent character.

Up to the approach of the fourth hour the volume of transactions was considerably under that of Wednesday.

Share gainers of 1 to around 3 points included Union Pacific, Santa Fe, N. Y. Central, Delaware & Hudson, Case, International Harvester, Deere, Auburn, American Chain, Murray Corp., Certain-Teed and Marshall Field.

Chrysler, General Motors, F. S. Steel, Bethlehem, U. S. Smelting, Western Union, North American, Cerro de Pasco and a number of others were off fractions to a point. The oils were slightly improved.

U. S. government securities and rail bonds edged higher. Commodities were irregular, but quiet. The dollar was steady in foreign exchange centers.

Quotations given by Parker, McElroy & Co., members, N. Y. Stock Exchange, 120 Broadway, New York city; branch office, 282 Wall street.

CAUSE OF RISE IN SUICIDE IS SOUGHT

Scientists Organize to Study Individuals' Habits.

New York.—Emotional distress, culminating in mental disease, and material misfortune such as poverty or unemployment, is the primary factor to be considered in determining the cause of suicides.

Potential suicidal patients can be recognized long before they attempt to destroy themselves, and their motives and impulses can be treated as a preventable disease.

These are the cardinal points to be driven home to the laymen in a national publicity campaign by the Committee for the Study of Suicides, Inc., recently organized here.

Dr. Gregory Zilboorg, psychiatrist, who has made important contributions to the psychological investigation of suicide, will be director of research.

Another member, Dr. Gerald R. Jamieson, is particularly interested in the project because he has been an advocate of better psychiatric training on the part of the general medical practitioner.

Spurred by the steady climbing of the nation's suicide rate, the psychiatrists will leave no stone unturned in their study of the habits of thought and general activities of the individual that lead to emotional instability and perhaps ultimately to self-destruction.

Other members of the "Suicide Institute" include Dr. Dudley D. Shoenfeld, whose articles on the Lindbergh kidnapping case in 1932 attracted wide attention, and Dr. Franklin G. Ebaugh, of Denver, director of the division of psychiatric education of the National Committee for Mental Hygiene.

The committee is organized to study the habits of thought and general activities of the individual that lead to emotional instability and perhaps ultimately to self-destruction.

Other members of the "Suicide Institute" include Dr. Dudley D. Shoenfeld, whose articles on the Lindbergh kidnapping case in 1932 attracted wide attention, and Dr. Franklin G. Ebaugh, of Denver, director of the division of psychiatric education of the National Committee for Mental Hygiene.

War Call Up to Congress

Call President So Urges

The President of the United States cannot formally declare war, but when he finds an actual state of war in existence, he may take the necessary military steps in the absence of congressional action. He is the sole judge whether such a condition exists.

Under the Constitution of the United States, the President has the power to veto an act declaring war, and congress has the power to pass it over his veto. A bill or joint resolution declaring war does not differ from any other bill or joint resolution, and cannot become effective until it has been presented to the President and approved by him or repassed over his veto by two-thirds of the senate and house of representatives.

Auto Industry Takes 24 Per Cent of Steel Output

Chicago.—The automotive industry was the leading consumer of finished steel in 1935, being the fourth consecutive year, according to the magazine Steel, Automobile, parts, and allied manufacturers took 24.04 per cent of the steel industry's output during the year, compared with 20.87 per cent a year ago, 20.95 per cent in 1933, and 18.15 per cent in 1932.

Second leading consuming outlet for finished steel during 1935 was the building industry at 13.01 per cent, maintaining the same rating as in 1934, when the consumption amounted to 12.70 per cent.

The container industry went into third place, pushing down the railroads, due largely to the trend toward merchandising beer, oil, and other products in cans. This industry took 9.30 per cent of total finished steel production, against 8.98 per cent in 1934. Railroads used 7.75 per cent of output, the lowest in the 14 years that the magazine made the survey, and compared with 12.90 per cent in 1934.

Other principal outlets for steel during 1935 were: Agriculture, 4.74 per cent; machinery, 4.37 per cent; oil, gas, and water, 4.29 per cent, and exports, 3.85 per cent.

Learn Jiu-Jitsu, Advice of Veteran Policewoman

New York.—"Every woman in every walk of life, needs jiu-jitsu," declares Mary E. Hamilton, New York's first policewoman. "No one looks askance any longer at the woman who comes and goes alone, day and evening, but that does not protect her from annoyances and attack."

Strength is not important in this ancient Japanese method of self-defense, Miss Hamilton points out. "There are a number of points in the body where pressure or a slight blow is sufficient to disable a 'tough.' A knowledge of such facts and of how to secure the requisite pressure, with skill in balancing the body, are the essentials of jiu-jitsu."

Nova Scotia Primarily Scotch

Because of Longfellow's "Evangeline," Nova Scotia is popularly supposed to be mainly French and English. But it is primarily Scotch. The opening of its parliament is accompanied by the skill of bagpipers, and several newspapers there are printed partly in Gaelic. In the Nova Scotian country of Inverness, 72 per cent of the inhabitants speak Gaelic, while less than half of the people in the similarly named county in Scotland can talk that tongue.

Legend of the Stock

The legend of the stock is supposed to have originated in Germany where the stock is regarded with reverence. On many houses in that country wheels are provided as seating places for these birds. In all probability the legend of the stock's connection with babies grew out of the sheer helplessness of the parents to explain satisfactorily to their other children where the baby came from, and it seemed quite natural to tell them that the tall white bird on the house, the guardian of the home, brought him.

Man Shoots 6,000 Rabbits

Reita, South Africa, has the worst plague of rats in its history. Farmers and townpeople are united in battling the rodents which are doing heavy damage and even destroying grain stored in aerial tanks. Rattling rats are at a premium and rat traps and poisons are being used. One farmer has shot over 6,000 rats with an air gun in the last six months.

Boobies Most Dangerous

Among all the sea family, the boobies are the most dangerous. In Africa they are known by the nickname of "Jen tamers," for any one of them can whip the biggest lion in the jungle. Lions are deeply afraid of them and a lion will beat himself against a cage wall trying to get away if a balloon is brought near while he smokes a cigarette.

National Guard 30-0-0

San Juan, P. R., March 5 (P)—National Guard units of San Juan were mobilized in their armories against possible emergencies today as the United States is sending 300 National Guards to a campaign of sweeping operations in a campaign to overthrow the government of the United States by force.

Miss Ball Found Dead in Her Home

Miss Jennie S. Ball, 60, was found dead in her home, 2 Winchell avenue, this morning about 11:30 o'clock by Patrolman Lenville Reilly and her niece, Mrs. Anna Ball, of 346 Albany avenue.

The condition of her body revealed she had been dead for several days.

Neighbors noticed that newspapers left on the porch and milk had not been taken in for two or three days, and became concerned about the welfare of Miss Ball, who had been under the care of Dr. H. L. Rakov for a heart ailment.

They notified Mrs. Anna Ball, her niece, who was unable to get into the house when she called to see her aunt. She notified the police and Patrolman Reilly was detailed to investigate. He forced his way through the rear door. The officer and Mrs. Ball found the elderly woman dead in bed.

Coroner N. R. Lasher of Saugerties was called. He did not render a verdict, deciding to talk with Dr. Rakov, Miss Ball's physician, before doing so. Dr. Rakov was busy with an operation at the Kingston Hospital, and could not be interviewed until this afternoon. Coroner Lasher turned the body over to A. Carr & Son, local undertakers.

Funeral arrangements will be made upon the arrival of Mrs. William Haller, of New York city, another niece, this afternoon.

Local Death Record

Margaret Dora Hennessey, wife of Patrick Hennessey, formerly of Kingston, died at Weehawken on Wednesday. Funeral services will be held at Weehawken Friday morning. Interment will be in the family plot in St. Mary's cemetery, Kingston, around 1:30 p. m. Friday. Automobile cortege.

The funeral of Harry E. Brodhead, who died at his residence, 116 Ten Broeck avenue, Friday, was held from the parlors of A. Carr & Son, Monday at 2 p. m., conducted by the Rev. Arthur G. Carroll of St. James' L. Church. The Masonic ritual was conducted by Mr. Tabor Lodge, 47, F. & A. M. of Hunter. Remains were placed in the Willwyck receiving vault until spring, when interment will be had in Margareville cemetery.

Mrs. Wilfred Kenney, who before marriage was Miss Grace Fuller of Middletown, died on Tuesday last, after a brief illness. Besides her husband, six children are left to mourn her loss, also her mother and two brothers, Middletown; one sister, Mrs. Jennie Miller of this city. The funeral will be held from her late home, 49 Gill street, Saturday morning at 8:30 o'clock, thence to St. Mary's Church, where at 9 o'clock a Mass of requiem will be offered for the repose of her soul. Burial in St. Mary's Cemetery.

The funeral of George W. Pratt was held Wednesday afternoon from his home on Guyton street, Lincoln Park, with the Rev. A. S. Cole, pastor of the Albany Avenue Baptist Church, officiating. Masonic services were conducted Tuesday evening at the home by Roundout Lodge, No. 242, F. & A. M., with Henry Milong, Jr., master of the lodge, and the Rev. C. L. Palmer in charge. The bearers were William Vogt, George Purdy, Adam L. Mattice, Charles Saunders, all members of Kosciuszko Lodge, of which deceased was a member. Burial was in St. Marlon cemetery.

Emily Doyle, aged 76, widow of the late William Doyle, died at Waterville, Conn., March 4. She was born in High Woods, N. Y. She is survived by one son, Benjamin of Brooklyn; five daughters, Mrs. William Scott of Waterville, Mrs. Raymond Thompson of Brooklyn, Mrs. Thomas Green of West New York, N. J., Mrs. Daniel Manning of Weehawken, N. J., Mrs. Ora Dorte of Weehawken, N. J.; three sisters, Mrs. Platt Aley of Kingston, Mrs. Walter Mower of Woodstock, Mrs. Fred Lockwood of Stamford, Conn. Funeral services will be held from the Mt. Marlon Reformed Church at Mt. Marlon, N. Y., on Saturday afternoon at 2 o'clock. Interment will be in the Mt. Marlon cemetery.

Hirota Given Charge

Tokyo, March 5 (P)—Emperor Hirohito charged Foreign Minister Koki Hirota today with the task of attempting to form a new cabinet to end Japan's governmental crisis, precipitated by last week's military attack on the Okada ministry. The Foreign Minister was summoned to the Palace this afternoon after the Elder Statesman, Prince Saionji, recommended that Hirota be named to head a government to replace that of Premier Katsuo Okada.

Food Sale and Tea

The Women's Missionary Society of the Wurts Street Baptist Church will hold a food sale and tea at the home of Mrs. Maxwell Salsburgh, 55 Staple street, Friday, from 2:30 to 5 p. m.

French Cows Journey South for Winter

Chambéry, France.—A special vacation train for cows is the latest innovation of the French railroads. One hundred and twenty-five de luxe cows boarded the Paris-Lyon-Mediterranean special recently to pass the winter months in the sun and climate of southern Provence. Enjoying the same privileges as public celebrities, these bovine passengers were able to take advantage of a 50 per cent reduction in railroad fare.

ST. REMY

St. Remy, March 5.—Sunday services: Sunday School at 1:30 p. m. Preaching by the pastor, the Rev. Philip Goertz, 2:30 o'clock. All are cordially welcome to these services.

Mr. and Mrs. Maurice Planch were at Schenectady last week.

The Ellsworth family attended the funeral of Mrs. J. Dero at New Paltz on Monday.

Kenneth Krom and family visited friends in Kingston on Sunday.

Mrs. Serena Freer visited friends in New Paltz over the week-end.

DIED

COMESKIE.—In this city March 4, 1936, Virgil Comeskie, husband of Mary C. Comeskie, and father of Mrs. Jane Dyson.

Friends may view the remains at the late home, 10 Snyder avenue, Thursday and Friday evenings, between the hours of 7 and 9. Funeral services private from the late home, Saturday at 2 p. m. Remains will be placed in the Willwyck receiving vault.

Attention Members of Aretas Lodge

No. 172, I. O. O. F.

Members of Aretas Lodge, No. 172, I. O. O. F., are requested to meet at the Odd Fellows' Hall, Broadway and Brewster street, at 7:30-sharp tonight. Thence to proceed to the home of our late brother, Virgil Comeskie, 10 Snyder avenue, to conduct funeral services.

## How to RUN a WANT AD

**First** PICK UP YOUR TELEPHONE

**Second** CALL 2-2-0-0

**Third** TELL AD-TAKER WHAT YOU WANT

There's no mystery or hocus-focus about putting an ad in the Daily Freeman. It's as easy as falling off a log. You want to sell something or hire somebody or rent a room or find a job and the quickest, cheapest, surest way is with a Freeman Want Ad.

Pick up your phone, call 2200, and tell your story to the Ad Taker. She will write your ad for you on the spot. With short, easy-to-understand words she will save you money and get you more results from your ad. She will read your ad back to you over the phone for your O. K. Not a chance of a thing going wrong.

That's all there is to it. And if you are selling something that someone wants, or want something that somebody has—it's dollars to doughnuts you'll get results! Because the Daily Freeman reaches nearly everyone in Kingston and its environs. And because wise people turn to the Want Ads first!

### USE THE WANT ADS

## Stern, Silent Men, Neatly Dressed, Are Best Umpires, Says 'Prof' Barr

By R. HENDRIX CHANDLER  
Hot Springs, Ark. (AP)—If you can take it without dishing it out, if it doesn't disturb you to work without friends and if you think silence is the highest reward for achievement, then, my boy, you might become an umpire.

"Prof" George Barr

So says "Professor" George Barr, National League umpire, as he expounds the art of calling 'em out and making 'em like it to 40 students enrolled here in his school of umpiring.

To be a success, the sorrel-topped professor explains, you can't let 'em get your goat no matter what names they call you. "The only thing to do is act as if the names were meant for the guy in the back row of the bleachers—and go right on calling 'em."

**Retain Your Dignity**

"If you talk back to players or fans you lose dignity and eventually they'll take you for a real ride. Don't kid with the players because when you do have to call someone down he'll think you're still kidding. "Don't let yourself be seen talking with players before or after games, because someone's sure to get the impression you're going to be partial to that particular player."

Barr's pupils officiate at league games between students attending the all-star baseball school here which is taught by such celebrities as Schoolboy Rowe, Rogers Hornsby and Tris Speaker.

First impressions mean a lot in

shined shoes and clean collar though you know they'll be covered with dust a minute after play is called.

"My friends used to razz me for dressing up for the game," Barr says, "but one incident in my minor league experience convinced me."

"I had taken unusual care to look my neatest but my fellow worker, a great umpire and a great guy, came out with a slightly ruffled suit, shoes unshined and a dirty collar."

"I'm not taking any bows for being a Prince Albert but it wasn't long before the crowd noted the contrast and began yelling uncomplimentary things like 'Who's your ragged friend, George?' Soon they were riding his decisions."

**Fast On The Feet**

"Of course, you're going to make wrong decisions," Barr confesses. "Even the best do it. But there's nothing to do but bear down on the next one and don't let the razzing get you. Don't try to even it up by calling the next close one for the other side."

"A good umpire has got to move on every pitch," says he, demonstrating with a leap into the air to "catch" the high pitch, a dive to look at the low one and various contortions to bring the inside and outside pitches into focus.

One of the greatest commendations Barr ever received resulted from a sprint from home plate, through the pitcher's box to second base to make the decision on a play where he was trying to stretch a drive over the infield into a double. You've got to be fast on your feet to do that, and Barr arrived to make the hair-line decision.

## Battery A Defeats St. John's Five Unnamed Five Wins Epic Battle

Battery A, 156th Field Artillery, defeated the St. John's team, 50 to 25, and the Unnamed Five, Kingston girls' team, defeated the Cornwall Shorties, 22 to 21, in an overtime battle, in games played on the Cornwall-on-Hudson High School court Wednesday night.

The game between the two girls' teams, according to reports, furnished the big upset of the season, this being the first defeat in 19 starts for the Cornwall girls, who have been cleaning up in great style, with amotions toward the girls championship of the Hudson valley. It was also the 11th victory for the Unnamed Five, who have yet to be beaten.

Score at end of first half, 18-15.  
Battery A. Fouls committed: Battery A 11, Cornwall 5. Time of halves: 20 minutes.

The game between the two girls' teams, according to reports, furnished the big upset of the season, this being the first defeat in 19 starts for the Cornwall girls, who have been cleaning up in great style, with amotions toward the girls championship of the Hudson valley. It was also the 11th victory for the Unnamed Five, who have yet to be beaten.

Battery A was held on almost even terms the first half, which they took 18 to 15, but after the recess their passing at attack found numerous openings in the Cornwall defense and the score piled up. Gesler with 15 points and Carpio with 14 led the local guardsmen, while T. Smith for St. John's made his usual high score, chalking up 15 markers. Borgleon, lanky Cornwall High player, was held to four points by Conroy.

The girls' game was a battle royal. The Unnamed Five fought an uphill game, trailing 9-8 at the half, with Marcia Buddington controlling the tap and outscoring E. Worden, ace center for the Cornwall girls. The local girls secured a lead, only to see it wiped out and the score tied at 15 all at the end of the game. In an overtime period, Kelifer and Marcia Buddington came through with fields, while E. Worden and M. Worden scored three points for the Shorties, giving the Kingston girls the game by a margin of one point. Shirley Buddington stood out in the Unnamed Five's defense, while Lukack did the best defense work for the Shorties. One of the features of the game was a set-to between L. Wood of Cornwall and Wood of the Unnamed Five that resulted in both girls being banished from the game. The box scores:

## Skating Club Goes To Bear Mountain

At the initial meeting of the recently formed Kingston Skating Club, held at the Strubel store on Broadway, Mr. and Mrs. Peter Strubel, sponsors of the organization, were elected president and vice president respectively.

After adopting rules the club members decided to end this year's activities with a trip to Bear Mountain Park, which has the lone enclosed rink between New York and Albany. Those who intend to make the trip this week-end are Peter Strubel, Don "Red" Mathers, Art Borden, Myron "Ace" Herrick, Don "Tarzan" Davis, M. Cauntz, George Albright, Bill Limbacher and Bob Wolfson; also Mrs. Strubel and a few of her friends will accompany the club.

## Basketball Games At Y. W. C. A. Tonight

Two games will be played this evening in the young Business and Industrial girls' basketball league at the Y. W. C. A. At 7:15 p. m. the Rosendale team will play against Spencers' and at 8:15 p. m. the Unnamed Five will meet the Daisy team.

Friends of the players may witness the games upon the payment of a nominal admission fee.

## KINGSTON ELKS LOSE TO NEWBURGH SHUFFLERS, 5-8

Competing against the Newburgh Elks shuffle board team this week, the Kingston team lost five out of eight games. Kingston was represented by Ed Cashin, Lou Maron, Charles Ryan, L. Sapp, Joe Ditch, John Edwards, D. Niles and Dr. Rosenberg. Next Tuesday, the Newburgh team will play in Kingston at the Elks' on Fair street.

## CAN HE FILL THE BABE'S SHOES?

Joe DiMaggio, \$75,000 Yankee rookie from the Pacific coast has the tough job this year of making fans "forget" Babe Ruth. He is shown (right) with Earl Combs at St. Petersburg, Fla., when the New York Yankees started training. (Associated Press Photo)

## TRAINING CAMP NOTES

(By The Associated Press)

Pensacola, Fla.—Dick Coffman, the American League castoff, may prove a valuable addition to the Giants' pitching staff. When he signed him up he was admitted as merely that he was willing to take a chance but this spring Coffman has been working hard, is in fine condition and has shown enough that the Giants' coaches believe he will stick.

St. Petersburg, Fla.—Frank Crosetti, one of the Yankees' dollar a year men, probably will be offered a regular contract before he has spent much time in camp. In his first drill Crosetti stepped around a lively pace and gave every indication that he had fully recovered from the leg injury that put him out of action last season.

Clearwater, Fla.—Casey Stengel hasn't had much trouble getting his pitchers into condition but he is expected to have some heavy thinking to do when the infielders report today. Advance information is that Vinco Sherlock may give Jimmy Jordan some real competition for the second base job and Ben Greaghty may be a serious rival for Louie Frey at short.

San Antonio, Tex.—Although the Wagners are not present, the Braves have a brother act in camp. Jim Weaver, the pitcher, brought his 24-year-old brother, Warren, up from Fulton, Ky., for a tryout. Warren has been doing some good and hot hurling.

Orlando, Fla.—There's a trace of tragedy in the Senators' camp when Oude Bluege coaches. Rube Lewis at playing third base. After 10 years of fine playing, Oude Lewis has been seen to slip at 3rd and base running but he still grins and the youngster the tricks of the profession.

Now that glass flying pens have been invented, it will be easy to see how things jump from the fire into the fire.—Indianapolis News.

## Einstein's Challenge

Philadelphia, March 5 (AP)—Prof. Albert Einstein challenged the physical scientists today to follow him in setting aside from the purely atomistic idea of the construction of matter. His line that the intangibles in the physical world can be understood and measured as well as the material particles was set forth in an 11,000-word article in the proceedings of the Franklin Institute.

## To Repeat Play

The play given recently by the Ladies Aid of the First Reformed Church will be repeated by request on Wednesday, March 18. Because of weather conditions, many people were disappointed in not seeing the popular actresses and the old time dresses and bonnets. All persons having tickets for the first performance may use them on the 18th. Other tickets may be procured at the door.

## Shirt Workers Asked To Attend Meeting At Auditorium Today

The Mayor's Industrial Committee has invited the shirt workers in the Jacobson plant on Cornell street to meet with the members of the committee in the Municipal Auditorium at 4:30 o'clock this afternoon to discuss plans to induce the Jacobson concern not to close the Kingston plant as planned.

At a recent meeting of the industrial committee a sub-committee was appointed to confer with the Jacobson concern in regard to having the plant shut down the plant here abandoned. This committee met in New York with representatives of the Jacobson plant.

As a result of that conference the committee decided to invite the employees of the plant to meet with the committee today. No representative of the Jacobson concern will be present at the meeting.

The shirt concern has planned to shut down the Kingston plant and have the manufacturing carried on at the Albany and Troy plants of the concern.

## U. S. Naval Officers To Give Testimony

Los Angeles, March 5 (AP)—High officers of the United States navy are to be called by the federal grand jury. It was unofficially reported today. In an investigation of supposed espionage and sale of fleet secrets to foreign powers.

The report, which said Department of Justice agents also would be summoned, was not denied by the U. S. district attorney's office.

Harry Thompson, 27, a discharged sailor, has been indicted on charges of illegally wearing a naval uniform aboard war craft. Thompson pleaded innocent at his arraignment.

Naval intelligence agents have joined with other federal authorities, it was said, in tracing the theft of what were reported to be secret orders for the 1374 fleet maneuvers giving naval movements 90 days in advance. A search was made, it was said, for a foreigner supposed to have purchased the information, but agents found he had sailed across the Pacific some time ago.

## What Congress Is Doing Today

(By The Associated Press)

## Senate

Debates Norris rural electrification bill. Lobby committee hears officers of Cities Service subsidiary.

## House

Considers District of Columbia appropriations. Sub-committee continues tax bill study.

## Bill Terry to Florida

Memphis, Tenn., March 5 (AP)—Bill Terry, happy over a bone specialist's decision that an operation is not needed to correct an old knee injury, will leave Memphis tonight to rejoin his mates at the New York Giants' Pensacola, Fla., training camp.

## Social Friday Night

A social, to which the public is cordially invited, will be given at the Franklin Street A. M. E. Zion Church Friday night, starting at 8 o'clock. There will be games for all.

## NEW CATHEDRAL AGE DAWNING ON WORLD

## America's Largest Church Is Nearing Completion.

Washington.—Removal of the iron scaffolding from the west facade of the Cathedral of St. John the Divine, on Morningside Heights, New York city, recently disclosed the entrance to this immense Gothic church and marked another important step toward completion of America's largest religious edifice.

"Paralleling the cathedral building era of the Middle Ages, a new age of cathedral building is under way in many parts of the world," says the National Geographic society. "Architects are poring over blueprints, cranes are lifting huge blocks of stone into position, and artisans are busy chiseling out statues and delicate stone tracery as new temples rear their pinnacles skyward."

"When finished, the Cathedral of St. John the Divine will rank third on the list of the world's largest, seating 10,000 people, with standing room for 40,000 more. Its exterior length, 601 feet, is exceeded only by St. Peter's in Rome, which is 719 feet long. Its central tower will soar 455 feet. Distinctive features are the seven Chapels of the Tongues, in which services are occasionally held in foreign languages."

## Two for Baltimore.

"In Washington, D. C., work is going forward on a great Fourteenth century Gothic edifice. High above the city, on Mt. St. Alban, rise the lofty gray walls of the Washington Cathedral of St. Peter and Paul. Its exterior length will be 534 feet. Its central tower will rise 262 feet. Among the outstanding features of this superb structure are the Bethlehem chapel, containing tombs of Woodrow Wilson and Admiral Dewey, and the choir stalls carved from oak trees that previously stood on the grounds."

"Baltimore is to have two new cathedrals. The Roman Catholic Cathedral of the Assumption of the Blessed Virgin Mary will be Romanesque with a nave seating 2,500 people. The twin towers flanking its main entrance will recall Notre Dame of Paris. The Protestant Episcopal Cathedral of the Incarnation, of which only the pro-cathedral is built at present, will be a limestone edifice suggestive of English and French Gothic types. Seating about 3,000, it will be approximately 330 feet long, with a spire 400 feet high."

"Ground was broken in the summer of 1932 in Upper Roxborough, Philadelphia, for the Cathedral Church of Christ. Built in a free Gothic style, it will be 490 feet long, and have a carillon tower 220 feet high."

"After the fire of 1906 had swept the homes from the crest of Nob Hill San Francisco, the cornerstone was laid there in 1910 for Grace cathedral, to be the largest of its kind west of the Mississippi. This partially constructed, 340-foot edifice is being built chiefly of steel-reinforced concrete. The lighted cross on its central tower will be the highest point on the city skyline, and visible for miles to ships entering San Francisco bay."

"Other cathedrals being projected in the United States are St. Philip's in Atlanta, Ga.; Trinity, in Trenton, N. J.; St. Mark's, in Seattle and the just finished St. John the Evangelist, in Spokane, Wash."

## England Builds More.

"Spain is building two new cathedrals. In the suburbs of Madrid have been built the foundations and shrine of La Almudena, in Barcelona, the shrine and two towers of La Sagrada Familia have been completed."

"England, home of many ancient cathedrals, is still building them. An Anglican cathedral, that will take its place with the largest in the world, is being erected in Liverpool. Situated on St. James Mount, this huge Gothic structure dominates the city and is a landmark to ships on the River Mersey. Built principally of locally-quarried red sandstone, its exterior will be 619 feet long and its large central tower, 97 feet square, will rise 306 feet above floor level. Its foundation stone was laid in 1904 by King Edward, and the choir alone was 20 years in building. A War Memorial chapel contains an illuminated vellum roll of honor on which are inscribed names of the nearly 40,000 Liverpool men who perished in the World war."

"Brownlow hill, Liverpool, has been chosen as the place for an immense Roman Catholic cathedral, in which 10,000 worshippers will be able to see the high altar at the same time. On the site, where the foundation stone was laid in June, 1933, still rise a massive domed brick structure, probably of the Renaissance period. It is expected that it will take at least 20 years to build."

## Rare Book Worth \$5,000 Is Bought for Trifle

Clonter, N. J.—A rare edition of "Pilgrim's Progress," said to be worth \$5,000, was bought for 84 cents by Mayor William A. Oliver at an auction of the personal effects of the late Mrs. Ellen Jane Acherman, wealthy relict.

Mayor Oliver bid 20 cents for three books, among them the John Bunyan work, which was published in 1598. Mayor Oliver, who is a bibliophile, as well as a thorough collector, said he recognized the value of the book as soon as it was offered for sale. In the volume were newspaper clippings saying Mrs. Acherman had once refused an offer of \$5,000 for it, according to Mayor Oliver.

Wings Challenge Vikings The Clinton Avenue Vikings have issued a challenge to the Wings on their first open date. The Wings have a good record and so far have won ten and lost but three games. The Vikings have also beaten many of the junior teams.

## Kauder Depicts Art of Chicken Breeding at Rotary Luncheon

The highly specialized business of breeding chickens for productive efficiency was discussed with remarkable clarity to members and guests in attendance at the Rotary Club luncheon in the Governor Clinton Hotel Wednesday noon. No less an authority than Irving Kauder of the Kauder Poultry Company described the processes that go into the technical art of using Mendelism and line breeding to achieve proficiency and perfection in the quality of both chickens and eggs that result from careful, scientific application.

Mr. Kauder's enjoyable talk was a far cry from the barnyard variety of chicken raising most people link with the poultry business. It became apparent at the outset of the speaker's remarks that modern chicken production is an art that requires both time and patience to bring about the satisfactory results a breeder seeks to achieve. Simplifying the law of Mendelism to the statement that like begets like, Mr. Kauder explained the processes he employs to create families of White Leghorn chickens to the greatest possible degree of perfection. He stated that the Mendel law wasn't as simple as it sounded because of the dominant and recessive characteristics to be found in each type of poultry. Be-

cause a hen or rooster happened to be a champion with outstanding qualities didn't mean that this chicken might establish an unusually proficient brood of chickens. On the contrary, the family strain from which this came might well have had various weak characteristics that showed up in all the other members of the brood and consequently these weak characteristics would be inherited through subsequent generations. The speaker said that because of this, his work was not centered in the individual chicken but in the family or blood strain.

The methods of attaining this high quality type of chicken demands great skill and detail. First of all, the pullet is placed in a trap nest and its reactions are carefully recorded. It is watched closely and completely segregated and when it is capable of egg production, the size, quality, color and shell of the egg is likewise recorded. Also the hen's egg laying ability. Any weaknesses are noted immediately and should the hen develop unusual characteristics, it begins a new blood line that is carefully watched and developed to the greatest efficiency possible. If valueless, the line is discarded.

The value of this intensive research became manifest when Mr. Kauder explained that a hen must lay about 120 eggs per year if the poultry raiser is to obtain even a small profit from his investment. At the present time, the aggregate egg laying ability of chickens in the United States is about 70 eggs per year. Because of this, poultry raisers in the United States have been operating in the red. The basic idea of breeding is to raise this quota to a figure whereby the poultryman can realize a profit on the chickens he raises for egg producing purposes. Through careful breeding, Mr. Kauder has developed hens with an egg producing ability of well over 200 eggs per year and all of his various strains have been capable of maintaining an average of over 200 eggs per year.

Mr. Kauder ships his baby chicks all over the United States and has also filled orders in British Columbia and Trinidad. He explained that a day old baby chick is completely self sustaining for 72 hours and his shipments must coincide with this time limit.

The speaker was the target for much questioning following his talk. He was asked if artificial light was of benefit in chicken raising and he said that experiments showed electric light to be of great value if not used in excess. This was especially so in the winter when it grew dark about four in the afternoon and didn't get light until almost seven the next morning. Through the application of artificial light, the chicken was able to eat and keep healthier during this period of the year.

In reply to another question, the speaker stated that if someone would draw a picture of a chicken on the wall, scientific poultry breeding made it possible to almost exactly duplicate the picture within the space of 10 years. Because of this, it is possible to alter the chicken's physical makeup amazingly. It is now possible to develop a chicken's body so that it will have greater egg laying ability and it is also possible for the chicken fancier to develop chickens especially adapted for show purposes. While on this subject, Mr. Kauder went on to say that he had experimented with injecting iodine into eggs for people suffering from goiter and other ailments where there was too little iodine in the system. The results were entirely successful and Mr. Kauder is able, through specialized feeding to put large quantities of iodine into eggs for people demanding it. The same has proven true of putting vitamin D into eggs for the diet of babies. And the speaker also stated that he had experimented with cod liver oil in chicken feeding and that the resulting eggs tasted the same as fish.

The question was asked if there was any difference in the quality or age of eggs with white or brown shells. Mr. Kauder stated that this belief was erroneous and that a

## —AND THE DRIVER WASN'T EVEN HURT BADLY

Although he seems on the verge of being dashed to death, Bobby Sall of Paterson, N. J., escaped without serious injury from this wreck at Daytona Beach, Fla. An alert cameraman made the photograph as Sall's racing roadster flipped over and sent its driver hurtling through the air. (Associated Press Photo)

white shelled and brown shelled eggs contained the same nutritive qualities as the other. He said that this mistaken belief was due to people of Boston and that section would favor the brown eggs while the people of this state favored the white eggs.

Mr. Kauder also explained that poultry raisers are realizing the necessity of proper breeding if they

are to protect their investment and reap a profit from their work. The day of haphazard chicken raising has changed into a very technical business. To prove his point, the speaker said that some of his breeding chickens have been purchased for over \$150 per chicken in contrast to the present market where a chicken is bought for two dollars or thereabouts. All of which signified that poul-

try raisers today are interested in establishing a productive strain into their business that will tend to create chickens with a high egg capacity and other dominant traits of marketable value.

The man or woman who thinks that a public question is as plain as mud probably knows little or nothing about it.
